Annual Report

Town of Walpole

Massachusetts

1970

246th
ANNUAL
REPORT

WALPOLE, MASSACHUSETTS

1970

This 246th Annual Town Report was prepared under the direction of the Town Report Committee appointed by the Board of Selectmen: Willis D. McLean, chairman; Mrs. Dominic Rignanese, secretary.

Cover Line Drawing

Continuing last year's introduction of using an early, historic, Walpole landmark on the Town Report cover, this year's design—again done by a Walpole High School art class student—is the livery stable which stood in the center of East Walpole up to the turn of the century.

For many, the drawing will evoke nostalgia of a nearly forgotten era—an era of long skirts, parasols and horse drawn carriages. When the stable was razed with the advent of the railroad, to be followed by the automobile, much of that unique old fashioned charm of the New England town was lost forever. This particular scene was chosen for this year's cover design because it so picturesquely recalls a period in the history of the town that should not be forgotten.

The line-drawing of this year's cover was done by Mary Lou Dunn, 257 Pleasant Street, East Walpole, Class of 1971, Walpole High School. A member of the art class at the High School, she plans to attend college next year and major in art.

Your

Town

19 Miles South of Boston

26 Miles North of Providence

On Routes 1, 1A, 27, and 95

Municipally Owned Water Plant and Sewer System

GENERAL INTEREST

Area—Approximately 21.09 square miles

Elevation—200 feet above sea level

Settled—1659

Incorporated as a Town—1724

Population—17,892

Registered Voters—8,016

Valuation—\$120,037,592 (Excluding Motor Vehicles)

Tax Rate—1970, \$46.00;

1969, \$42.00; 1968, \$36.50

Motor Vehicles Registered—15,000

Number of Houses—4,260

Parks—Memorial and Francis William Park

Schools—11 (Class A Rating)

PRINCIPAL INDUSTRIES

WALPOLE SELECTMEN—Seated, left to right, Mrs. Eleanor Johnson, clerk; Richard H. Holman, chairman; Frank W. Smith. Rear: David E. Perkins and Joseph L. Wissman.

Board of Selectmen

RICHARD H. HOLMAN, *Chairman*

ELEANOR N. JOHNSON, *Clerk*

FRANK W. SMITH

DAVID E. PERKINS

RICHARD K. TROXELL

		Budget	Expenditures
1960	5 Selectmen and Full Time Clerk	\$5,923.60	\$5,694.10
1968	5 Selectmen and Full Time Clerk	7,661.00	7,661.00
1969	5 Selectmen and Full Time Clerk	8,542.83	7,092.73
1970	5 Selectmen and Full Time Clerk	10,108.00	9,933.54

The Excess and Deficiency Account balance at the close of the year 1970 was \$550,158.07.

The Board of Selectmen had a busy and productive year. In addition to the regular sessions of the Board, we had innumerable meetings, discussions and conferences with department heads, town committees and County and State officials.

In September the Walpole Selectmen were instrumental in establishing the Southwest Area Coordinating Committee. The objective of this group, comprised of Selectmen from eleven communities in southwest Norfolk County, is to study and where possible resolve mutual problems on a regional basis.

A Tactical Police Unit was formed in Norfolk County with Walpole participating. The unit is composed of 100 specially trained officers from the various communities and will be available to any community involved

BOSTON POST CANE, emblem of oldest resident of the town, was awarded by selectmen to LeRoy F. Spear, 93, of 24 Riverside drive. Last recipient of cane was Mrs. Effie Jonah, who died at age of 101. At presentation to Mr. Spear were, left to right, Selectmen David E. Perkins, Mrs. Eleanor N. Johnson, Chairman Richard H. Holman, Mr. Spear, Frank W. Smith, and Joseph L. Wissman.

in a civil disturbance. We hope the occasion never arises, however in these times it appears wise to be prepared for any eventuality.

The scheduled work of improving our water system continued during the year. A new well was completed and put into use in July, increasing the pumping capacity by over half a million gallons per day. New distribution mains were installed in many areas of the town. Storage tanks were cleaned and painted, and dead-end lines were cleaned and flushed on a regular basis, improving the quality of water in outlying districts.

The Town Meeting sanctioned an Historical Commission to preserve, promote and develop the historical assets of the Town. Walter Fisher, Frank Larrabee, Marjorie Spear, Theodore Howard and Eugene Hartshorn were named to serve on this commission.

October brought a massive clean-up of the Neponset River. Many townspeople volunteered and under the supervision of Frank Farinacci made this a most successful effort in clearing the area of debris and lessening the pollution of the river in this area.

In December the Board of Selectmen voted to appoint a three member committee to serve in an advisory capacity to the Board of Health. This group will study and make recommendations regarding the public health needs of the Town. The members are to be appointed in 1971.

The Town, like the individual homeowner, has its financial problems. The steady increase in the cost of material and labor continues to send the tax rate up. Financial relief must come to the local communities, as property owners can no longer bear the burden of rising costs. Some solution must be found to this problem before chaos strikes every city and town in the Commonwealth.

The Board of Selectmen extends its sincere appreciation to all elected and appointed officials, committees and town employees for their cooperation and assistance during the year. All of these people give so much, so willingly to make Walpole a better place to live and work.

Town Counsel

ALPHONSE W. QUERY, JR.

During the year, this office was concerned with some subjects new to the normal sphere of town legal activities.

In the areas of air pollution, civil rights, representative town meeting, and the new stadium in Foxboro, we devoted time to problems which reached our Town for the first time.

As is customary, we assisted the elected and appointed officials and various board and committees of the Town.

Appearances were made in the Wrentham District Court, Stoughton District Court, Norfolk County Superior Court, and the Massachusetts Supreme Judicial Court. I am pleased to report to the Town that we have no litigation pending against the Town wherein there might be financial exposure of any consequence.

Personnel Board

RAYMOD H. BEAUDET, JR., *Chairman*

FRED TURCO GERARD HAYES JOHN CLARKE HORACE MAYO

The Personnel Board was established in 1954 to administer the Classification and Wage and Salary plan, set up under Town By-Law. The Board acts on all merit increases, promotions and reclassifications for town employees, except those who are exempt.

More than 85 increases were acted on during the last year. Job descriptions were updated and the Personnel By-Laws were reviewed.

Salary and By-Law comparisons are being made on a continuing basis with towns of similar size and population to Walpole so that records of the trend of municipal salaries and wages in the area can be kept.

Written job descriptions and personnel records of all employees are maintained.

During the year the Board has met with many department heads, committees and boards regarding town personnel matters.

Regular meetings are held the first and third Mondays of each month. As most of the Board's work deals with discussion of personalities and finances, many meetings are conducted in executive session.

HERBERT B.
(Mickey) MAKER

411 North Street, Walpole

Herbert B. (Mickey) Maker retired on November 30, 1970 at age of 70. He started with the Department of Public Works on April 19, 1922 as a truck driver. A highway department foreman for 24 years, "Mickey" will be missed by all Town employees.

Town Administrator

JOHN P. MOGAN, *Town Administrator*

The Administrator wishes to recognize the outstanding cooperation of all employees and departments of the Town for the year of 1970.

Respectfully submitted are the following reports of departments under his authority.

Public Works Department

HAROLD E. WILLIS, *Superintendent*

The department has covered all work of the Highway, Water, Sewer, Park Departments and the Landfill operations.

Snow and ice control is also handled by this department, as are training and personnel problems.

Herbert Maker retired this year. He will be missed by the department as he was a source of help and information to the Superintendent personally and to the Department as a whole.

Reports from the foremen of the various departments follow:

ECOLOGY-MINDED young people pick up debris along Neponset River

Highway Department

PASQUALE MARINO, *Foreman*

The following streets were treated with MC800:

Baker	2600 feet
Brook Lane	390 feet
Burns Avenue	1000 feet
Clinton Avenue	450 feet
Coney Street	2500 feet
Country Side Lane	550 feet
Hale Road	1800 feet
Irving Drive	2100 feet
Kendall Street	2400 feet
Killeen Road	200 feet
Maude Terrace	1345 feet
North Street	3500 feet
North Street edge	2500 feet

MC250 Asphalt was used on the following streets;

Old Post Road	2800 feet
Plimouth Lane	400 feet
Puritan Place	600 feet
Sandra Road	1500 feet
School Street	2500 feet

South Street	8550 feet
South, Pine to Washington Streets	2895 feet
Summer Street	2475 feet

Streets surface treated with RC800 one-half inch stone were:

Morningside Drive	1000 feet
Peach Street	2400 feet

Chapter 90 streets surface treated with Type I Bituminous Concrete were:

Water Street	900 feet
Washington Street	2200 feet

Streets treated with Type I Bituminous Concrete were:

Norfolk Lane	2100 feet
Irving Drive	LL 1200 feet
School Street Water Trench	2300 feet
Union Street Water Trench	2500 feet

Street drains were installed on High Street, 600 feet with three manholes and two catch basins.

Street drains were installed on Water Street, Winter Street, and West Street.

Sidewalks were installed on: Pemberton Street, Bowker Street, and Norfolk Street.

Street drains were repaired on: Washington Street, Spring Street, Plimpton Street, Parking Lot, Plimpton School, Stone Street, Bird School and Boyden School.

Catch basins were cleaned on all streets and schools.

All streets and schools were swept.

All sewer and water trenches were patched.

Sign crews installed and repaired many street signs.

The following streets were graded: Davis Street, Dupee Street, Victory Road, Alton Street, and Turco Drive.

All fences were repaired and painted.

Public Works Garage

BENNETT C. GOVE, *Foreman*

Maintenance, lubrication and repairs were performed on all fifty-four D.P.W. vehicles, including Water, Park, Building Maintenance, Highway, Administrative, Engineering and Civil Defense Department units.

Complete engine overhauls were done on two vehicles. Valve jobs were done on one auxiliary power generator. Clutch jobs were done on four vehicles and five complete brake jobs were performed.

EVERYONE, YOUNG AND OLD, joined in October clean-up of Neponset River.

All portable generators, compressors, ditch pumps, tractor lawn mowers and attachments were lubed and maintained.

Sand blasting and painting were done to the three Sander units and all snow plows.

Welding and repairs and cutting edges were made on all ice control units and snow plows including sidewalk tractors and loaders.

The John Turco Drive pumping station's diesel and other auxiliary equipment was lubed and maintained weekly throughout the year.

The Sanitary Landfill Caterpillar tractor was lubed and maintained and repaired when necessary.

All new equipment purchased in 1970 was inspected and checked to Town specifications and serviced for use.

Water Department

RALPH ROBERTS, *Acting Foreman*

Gallons pumped at Washington Street No. 1	441,144,000
Gallons pumped at Washington Station No. 2	108,079,000
Gallons pumped at Mine Brook Station No. 1	140,092,000
Gallons pumped at Mine Brook Station No. 2	137,879,000
Total water pumped	827,194,000

Smallest day pumped—October 10	1,292,000
Largest day pumped—May 26	3,237,000
Smallest month pumped—November	56,554,000
Largest month pumped—June	84,902,000
Increase in water pumped over 1969	(—4,372,000)
Average daily consumption	2,266,285
Average daily consumption per capita	129.7
Miles of water main December 31, 1970	86.57
Number of services added to system	64
House service renewals	12

Park Department

JAMES WALSH, *Foreman*

The Dutch Elm disease program continued. This consisted of pruning, sampling and the removal of diseased elms.

A check was made of the increasing number of Sugar Maples in a state of decline. Hazardous trees were removed.

All town lawns and athletic fields at schools were fertilized and public buildings were maintained.

Brush and weeds were cut along all roadsides and at fire lanes in Town Forests.

Trees were planted, leaves were picked up, the Town Landfill was operated and town-owned cemeteries were maintained.

Ice at Memorial Pond was kept in condition for skating.

Swimming pools were cleaned, painted and maintained.

Building Repairs

A summary of the work performed during the year is as follows:

Bird School—Painted classrooms, corridors, and radiators. Siliconed brick outside of kitchen. Replaced basketball standards

Boyden School—Painted corridors and exterior doors. Repaired and widened blacktop around school. Siliconed brick exterior.

East Junior High School—Installed bulletin boards and shelves. Repaired and painted front entrance.

New Fisher School—Refinished and painted four rooms. Repaired and installed shades and valances in auditorium. Installed wire glass in all fire doors. Miscellaneous electrical work.

Old Fisher School—Painted all exterior doors.

Plimpton School—Painted corridors and two rooms. Replaced window shades. Reset flag pole. Replaced incinerator smoke pipe. Increased size of parking lot. Siliconed brick.

In Memoriam

ORACE R. LITTLEFIELD

Died Jan. 12, 1970

at Age 58

Orace R. Littlefield started as a Town employee in April 1957 as a carpenter, and became foreman of the Building Repairs Department in 1968. A dedicated public servant he will be missed by all who knew him.

Old Post Road School—Painted corridors and six classrooms. Black-topped playground area.

Senior High School—Replaced drop curtains on stage. Built and installed book shelves and bulletin boards. Painted corridors and six classrooms. Installed two closets. Painted all exterior doors. Miscellaneous electrical work.

New Stone School—Repainted corridor and four rooms. Repaired and resurfaced blacktop in rear. Siliconed brick. Removed and repaired damaged gutter systems. Painted all exterior doors.

Old Stone School—Painted east side entrance. Repaired all window sashes. Patched concrete outside west steps.

West Junior High School—Painted locker rooms and two classrooms. Rebuilt patios with concrete. Rebuilt pathways in rear. Installed shelves in three rooms.

School Administration Building—Painted entire interior. Refinished all floors. Miscellaneous electrical work.

Blackburn Memorial Hall—Painted interior, lower floor.

Town Hall—Painted two rooms. Carpeted Selectmen's Office. Siliconed brick, front and north side.

Public Works Buildings—Painted interior of Water Department.

Center Fire and Police Building—Installed 2,000 gallon underground gas tank for the Fire Department.

South Fire Station—Siliconed brick exterior.

Center Library—Ventilated stack area.

East Library—Painted entire interior and exterior. Replaced floor covering on first floor. Replaced venetian blinds. Installed formica on work counter.

North Library—Refinished floor in children's room.

Miscellaneous—Inspected and recharged all fire extinguishers where needed. Replaced all broken glass in various buildings. Made bookcases. Made voting booths. Set up and took down voting booths. Set and took down Bloodmobile. Rekeyed locks. Repaired all broken locks, spindles and handles in various buildings.

Norfolk County Mosquito Control Project

ALBERT W. HEUSER, *Superintendent*

Listed below are the activities of the Project during the year:

Aerial larvicide	1930 acres
Misting from trucks	4660 acres
Backpack spraying	75 acres
Winter pre-hatch dusting	50 acres
Drainage ditches cleaned	2565 feet
Brush cut	850 feet
Catch basins treated	590 basins
Culverts cleaned	10 culverts
New ditch constructed	502 feet

Wire Inspector

CHESTER DONNELL, *Inspector*

CHARLES GEORGE, *Assistant Inspector*

During the year 752 inspections were made.

All complaints concerning electrical installations were investigated and taken care of.

Plumbing Inspector

ROBERT J. HEAVEY, *Inspector*

Three Hundred Two (302) Plumbing Permits were issued during the year 1970.

All complaints were investigated.

Milk Inspector

GEORGE E. YETMAN

Analysis and Bacteria Count

Number of samples analyzed	150
Antibiotic residual assays	26

Inspections Made

Farm and Dairy	21
Stores	81

Licenses Issued

Vehicles	7
Stores and Restaurants	55
Oleomargarine	7
Pasteurization	1

High Bacteria Counts

Bacteriological tests were made along with butterfat content on samples from all companies selling milk and cream in Walpole. All test results were reported to dealers and records kept. Applications to sell milk and cream in Walpole were processed and licenses issued after refrigeration was checked. Complaints were checked and recommendations made to correct problems. Records were kept and reports made to the Milk Control Commission and the Department of Health.

Inspector of Animals

DR. FRANCIS X. MAGUIRE, V.M.D.

Property, where livestock is kept, has been investigated and inspected.

Dog bites were investigated and proper quarantine notices served.

No case of rabies were found. All rules and regulations as set forth by the Division of Animal Health have been carried out.

Health Officer

HAROLD M. GRODEN, M.D., *Health Officer*

That time-worn adage "no news is good news" has a most salutary application to the consideration of personal and community health. In no sense am I suggesting that this is due entirely to a fortuitous benignant act of Providence. The year 1970 has passed into the numerical yesterdays, and we citizens of Walpole can be grateful that we have been spared any major health problems.

Acting upon the request of concerned and dedicated persons the Board of Selectmen appointed a committee to study the overall health program in Walpole with specific reference and recommendation toward the feasibility of creation of a discrete Board of Health. The committee included John Keeling, a highly dedicated and knowledgeable—especially in the problem under consideration—citizen; Robert Barrett, an

esteemed attorney; Mrs. Lawton Dings, R.N., a nursing supervisor at the Norwood Hospital; George Najarian, a registered pharmacist, and myself, as appointed chairman.

At no expense to the town we met on several occasions, and I beg to report that as mature professional people, having carefully studied the issue, and how it is handled in other communities, we repudiated the idea of a separate discrete Board of Health as unnecessary, expensive, and inefficient. I am grateful to a long-time friend, Nicholas J. Fiumara, M.D., Commissioner of Communicable Diseases for the Commonwealth of Massachusetts, for his counsel and suggestions in this matter. We do feel, however, that an Advisory Board to the present Health Department should be considered.

However, with inevitable population growth there is no question that our health program must commensurately be expanded, and that certain restrictions must necessarily be introduced, e.g. with regard to livestock, storage of organic fertilizer, etc.

I have volunteered to cooperate with the police department in the management of the acute drug-induced psychosis—the so-called “bad trip”—which may require temporary committment in a psychiatric hospital and only authorized by a licensed physician.

In the immunization field I administered 1459 Mumps injections and 954 German Measles to the school children. Further influenza shots were given to the elder citizens, and town employees, including Fire and Police departments.

Town Sanitarian

FERIAL R. MORRISSETTE, R.S., *Sanitarian*

Disposal works construction permits issued	65
Backfills for local sewage disposal permits approved	61
Food service inspections	51
Nuisances abatement inspections	70
(Includes overflowing sewage and illegal rubbish disposal)	
Inspections of sub-standard dwelling	5
Investigation of rodent complaints	3
Inspections of Stop River and water samples taken	4
Inspections of Swimming Pool and water samples taken	8

Dog Officer

NORMAN F. PAGE, *Dog Officer*

Total dogs licensed to date	1787
Complaints received and answered	121
Stray dogs picked up	83
Stray dogs returned to owners	21
Dogs reported lost	160
Warnings sent out to owners of unlicensed dogs	898

Dog bites	105
Citations issued	19
Court cases	2
Dogs struck by motor vehicles	86
Dogs killed by motor vehicles	46
Total calls received and answered	924

Recreation Program

DOMINIC A. BALDASSARI, *Director*

The recreation programs during 1970 have provided varied activities for all age groups. The programs conducted throughout the winter months included boys' basketball, ages 8 through 14, where basic fundamentals were taught. Basketball for adults was played at the High School gym every Wednesday evening and volleyball and badminton were also available at the same time.

Because of the previous interest displayed, a music program consisting of guitar lessons for all ages was conducted during both winter and summer seasons.

Figure skating lessons were conducted during the fall and spring and the Walpole Youth Hockey Program was available to Walpole youngsters through a private organization. It ran from October through March.

The Competitive Swim Team, which practiced through the courtesy of the Wrentham State School, enrolled a record number of participants, ages 7 through 18 years.

Scouting for boys and girls, as well as Camp Fire for girls, was offered to all boys and girls in the town.

Tennis clinics and tournaments were held during the summer months for all children and adults. Winter tennis clinics were conducted for adults. This class instruction started in November and concluded in February. Tennis playing was offered to the more experienced player from November to April.

The summer swimming program, conducted at the Center and South pools consisted of pre-school children's classes, beginners, Junior and Senior Life Saving classes, all of which were filled to capacity. Adult swimming, under the lights, is becoming more popular and was held at the Center pool each weekday night except Wednesdays from 8:00 p.m. to 9:30 p.m.

The Walpole playgrounds operated Monday through Friday from 9:00 a.m. to 4:00 p.m. during the summer months. They offered a variety of experiences for boys and girls, ages 6 through 18.

The Recreation Director and Recreation Committee express sincere appreciation to the townspeople and town officers for their cooperation and encouragement during the past year. It is hoped that as the growing needs of the town dictate, the Recreation Director will be able to continue to provide a wide and varied program of which the town can be proud.

	No. of Employees	Budget	Expenditures
1967	23	216,711.00	213,327.56
1968	25	236,331.00	223,106.16
1969	25	274,822.91	269,339.71
1970	25	311,717.00	

This past year we had installed in the Police Station a computerized teleprocessing machine which replaced the outdated teletype machine. This ties Walpole into the Leaps Program and affords us with instant communications and wanted data with the following agencies: National Crime Information Center (NCIC, Washington, D. C.), Law Enforcement Teletype System (LETS), the Registry of Motor Vehicles (Reg.), the Board of Probation (BOP), the Attorney General's Office (AG), and the Criminal Intelligence Information System (CIIS).

This new system also links us in with other police and related agencies in a vast, high speed network of police information. Information is now either sent or received in an instantaneous manner. Under the old system, vital information was sometimes delayed for hours.

Every man in the department went through a training session in order to familiarize himself with the new computer, which calls for complete exactness in procedure and spelling. The men attended classes which were conducted by the State Police and persons who were computer trained.

Sophisticated and technical equipment, such as the above, must be constantly added to any modern police agency if we are to keep abreast with ever increasing crime problems and new complexities that confront law-enforcing agencies.

On other police training and advanced schooling, I am pleased to report, that at the present time, seven police officers are attending accredited colleges and/or universities, their subjects being police related. Other officers in the past year have attended various seminars sponsored by the F.B.I., state and county agencies, and universities. Courses included

Juvenile Problems, Drugs, Administration, Supervision, Public Relations, Firearm Instruction, etc.

In 1970 the Walpole Police Department joined with twenty other surrounding towns to form the Central Norfolk Tactical Unit. The chief purpose of this program is to afford smaller towns with a large number of trained men in the event of an emergency. The unit was trained by instructors from the F.B.I.

The Pistol Team enjoyed another successful year and again won the Norfolk County Trust Company trophy. The team also competed in other competitive matches and exhibitions held locally and in New England, winning team and individual honors. Firearms training is also given to all the members of the department.

During the past year, we had our share of minor and major crimes, including robbery, rape, burglary, stolen vehicles, etc. Breaking and entering (burglary) continued to be the number one serious crime, as it is all over the country. Residence burglary has increased tremendously in the past ten years, especially in the daytime having risen 286% since 1960.

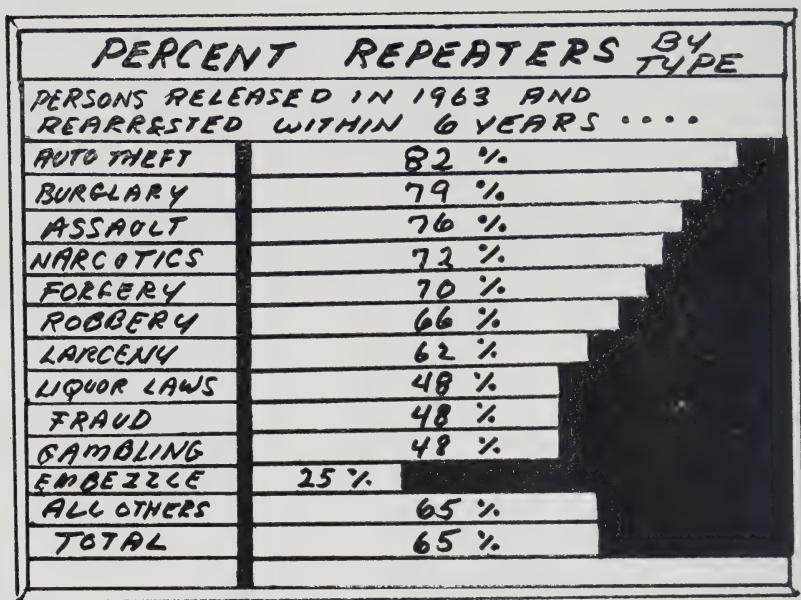

One of the leading causes for the increase in crime are the "repeaters"; persons who have done time in prison and are released or persons who have been apprehended for committing a crime and who do not serve time.

A study was made of 18,567 offenders over a six year period. Of these offenders released to the community, 65% had been rearrested by the end of the sixth year after release.

Of persons acquitted, or had their cases dismissed, over this six year period, 92% were rearrested for new offences.

These astounding facts are graphically brought out by the charts shown below.

In 1970 the investigation and the surveillance of the over-all drug program in Walpole was stepped up considerably. Many hundreds of police hours were spent in attempting to come up with answers, not only in the apprehension of drug violators, but also in attempting to aid youngsters and parents who had drug problems.

One manner in which we attempted to assist, was the printing of drug articles in the Walpole Times, which was done for ten consecutive weeks. The purpose was to inform our citizens regarding the various drugs being used, the description of them, their dangers, the cost, both financial, physical, and mental. Most important, we believe, was our urging youngsters and parents to come to us with their problems and to discuss them in a "Living Room" atmosphere, where they would be comfortable, and it would be confidential, where they would talk and we would listen. We believe, sincerely, that many were helped.

We will continue to assist and to consult in the above manner with anyone who has a drug problem, but we can never lose sight of the fact that we are law-enforcing officers and we are sworn to do our duty for the good of all society.

We must do our best to curb or slow down violators of the drug laws. We had this type of work to perform this past year, and as mentioned earlier, after many hundreds of police hours of investigation, especially aimed at sellers, many arrests had to be made. We did not feel over-elated about this. We did not rejoice. In fact, we thought it was a sad day for the town of Walpole. Whoever thought, five or ten years ago that this day would come. The sad part about this operation is that it won't stop the drug problem. It will continue. Other arrests will have to be

made, but worse than that many youngsters will be physically or mentally wrecked or die.

We sincerely hope that research will continue to step up as the real solution to the drug problem is to find answers for prevention, rehabilitation, and to continue to aid and consult with all youngsters and parents, before a drug problem arises or after it becomes one.

Below are some figures and some statistics released by the F.B.I. which should be of interest to the citizens:

CRIME CLOCKS — 1969

Serious Crimes	9 each minute
Violent Crimes (Murder, rape, robbery, or assault to kill)	1 every 48 seconds
Murder	1 every 36 minutes
Forcible Rape	1 every 14 minutes
Aggravated Assault	1 every 2 minutes
Robbery	1 every 2 minutes
Burglary	1 every 16 seconds
Larceny (over \$50)	1 every 21 seconds
Auto thefts	1 every 36 seconds

1969 CRIME CAPSULE

1960-1969:

Population up 13%—Crime up 148%
 Crimes of Violence up 130%
 Crimes against property up 151%
 Murder up 62%
 Aggravated assault up 79%
 Forcible rape up 92%
 Robbery up 148%
 Larceny up 167%
 Auto theft up 149%

In 1969 alone there were 125 police officers killed, most in the line of duty, others murdered, without warning through unprovoked attacks; 11,949 officers were seriously injured.

In the past year, Walpole Police officers were publicly commended for acts of courage and in saving human lives. An infant baby was brought back to life by the prompt action of an officer. A youngster was saved from drowning by another officer. Others were commended for apprehending criminals at the scene after they had broken into resident home and other buildings. Others are doing "good police work" day in and day out, and this does not go by un-noticed. Many letters of thanks and appreciation have been received from grateful citizens who have had the need, and have observed the Walpole Police Officer doing a "good police job".

Police work continues to change. Each year added and different responsibilities seem to fall upon us.

Not too long ago, our concern was mostly with the burglar, the drunk and with traffic. The laws and guidelines were clear cut for the law enforcing officer.

Today, through various Supreme Court decisions, many facets of the law, through these decisions have gone into the gray areas where there are double meanings and other complexities making it very difficult for clear-cut arrests, obtaining evidence and then going to court, facing numerous motions, before the case goes to trial.

All through the nation many other movements and beliefs have swept over us like some giant tidal wave—the drug problem, the protestors (lawful and unlawful), the extremists, the revolutionists, the breakdown between oldsters and youngsters, the vast increase in crime, bombings and bomb hoax calls.

We must protect both sides, the lawful and the unlawful. When there is a breakdown in all other aspects of society (for an example) in failure to resolve a minority problem, then, as a last resort the police are called in to confront, which no police officer in his right mind wants to do, but again he has sworn to do his duty. As a result, the police all across the land have been made the number one, so-called anti-establishment target.

We the police are not against people who protest or who gather to protest. All, in this great country of ours, must be able to express themselves under the great freedoms given to us under our Constitution, but it must be lawful and legal. We, the police, must uphold the laws as they are written. If we fail, all society will fail to recognize the form of government, or our way of living, as we know it today.

Town Collector

JANE A. AHEARN, *Town Collector*

	No. of Employees	Budget	Expenditures
1960	2	\$11,253.30	\$11,238.58
1969	2 and 1 part-time	21,086.00	16,854.32
1970	2 and 1 part-time	22,075.70	18,916.21

During the year, the Town Collector's office received monies totaling \$5,911,954.50 from the collection of the following: real estate taxes, personal property taxes, motor vehicle excise taxes, farm animal excise taxes, water rates, water services, water liens added to taxes, unapportioned sewer betterment assessments, apportioned sewer betterment assessments added to taxes, interest and costs, lien certificates, school tuition, custodial services, ambulance services, veterans services and other various and miscellaneous accounts receivable.

NEW 1000 GALLON-PER-MINUTE MACK DIESEL PUMPER

Fire Department

ROBERT M. GARDNER, *Chief*

The Fire Department received delivery this year of a new 1000 gallon per minute Mack pumper and a new International all wheel drive forest fire piece.

Last year we had a year free of deaths due to fire. This year unfortunately, during the Christmas season, we had three young people die by fire in a dwelling.

Again the mutual aid pact with the surrounding towns proved its worth for Walpole as well as to our neighbors.

I publicly thank my fellow Officers and Firefighters for their fine spirit and dedication to our duty to protect the persons and property of Walpole and the various Towns where we have been called.

Fire Alarm

One new master fire alarm box was connected to our system during the year. This box was installed on the new Boys' Dormitory at the Norfolk County Agricultural High School.

A total of 2,223 manhours were expended on maintenance, testing, repairs, extensions and emergency work during the year. This was an increase of approximately 30% over the previous year. All fire alarm boxes were checked for defects and wound after each alarm. The increase in box inspection, pole transfers and other related repair work resulted in fewer circuit interruptions and trouble conditions in our system during 1970.

A total of 421 alarms were sounded to call department personnel during the year. A comparison with the year 1960, wherein 186 alarms

were sounded, indicates an increase of 125% in a ten year period. From our statistical report, it will be noted there was a 25% decrease in false box alarms during 1970 as compared to 1969. Of particular concern, however, is the almost unbelievable 250% increase in false telephone alarms this past year.

Department of Weights and Measures

FREDERICK F. BROWN, *Acting Sealer*

I present you herewith, the annual report for the Department of Weights and Measures for the Town of Walpole, for the year ending December 31, 1970:

Summary of the Department's activities during 1970:

Units Tested	334
Units Sealed	326
Units Adjusted	103
Units Condemned	5
Units Not Sealed	'3
Adjustment Fees charged	\$4.00
Fees Collected and paid to Town Treasurer	758.00

Surprise spot-checkings of essential food items totalled 707 units; the findings of which were: 537 correct, 31 under and 139 over measurement. The merchants concerned were advised accordingly and responded cooperatively. This is a practical way of checking against possible human or mechanical elements pertaining to prepacked items.

Veterans' Services

JAMES J. FITZGIBBONS, *Director-Agent*

During the past year, this office rendered various services to approximately 600 veterans and/or their dependents. Fifteen Walpole veterans died in that period: 8 from World War II, 4 from World War I, and 3 Viet Nam. We assisted 98 veterans in filing applications for the Viet Nam bonus and filed for educational benefits for 43 veterans for both school attendance and on-the-job training. We applied for 5 burial allowances, 4 grave markers, 6 certificates of eligibility for home loans and 2 G.I. insurance death benefits. We completed 8 applications for service connected disability compensation for Viet Nam veterans (the reason this number is so low is that the Veterans Administration in this war has contact officers in military hospitals and the compensation forms are filed before the serviceman is discharged), 4 non-service pensions, 7 survivors' pensions for widows and children and 2 aid and attendance cases. Total

amount of pensions and compensation paid to Walpole residents amounted to \$18,471.36. Not included in this report is the amount paid for educational benefits.

In addition, there was the regular routine of dispensing information, making permanent records of discharges, changes of address, filling out annual income questionnaires, taking care of changes in insurance problems, and directing veterans to sources of help with medical and dental problems.

Relative to assistance to veterans and their families under Chapter 115 of the General Laws of the Commonwealth of Massachusetts, we had 20 new cases plus three cases that were ineligible for various reasons. We hold assignments on 3 benefit cases, which assures reimbursement of money expended on them.

A total of \$31,110.13 was expended for Veterans' Benefits, an increase over 1969. I see no prospects of lessening of expenditures in the future with regard to the veterans' assistance program. It will continue to rise.

Planning Board

ANTHONY M. FARINACCI, *Chairman*

GERARD E. COMEAU, *Vice-Chairman*
JOHN A. COSMAN

JOHN J. DUFFY, *Secretary*
PAUL C. GAY

	No. of Employees	Budget	Expenditures
1950	1 part-time	\$205.00	\$189.14
1960	1 part-time	522.00	478.98
1969	1 part-time	3,950.00	1,431.37
1970	1 part-time	3,928.00	3,343.57

The Planning Board met regularly on the first and third Tuesday of each month. Three special meetings and two public hearings were also held.

The Board also met with the Board of Selectmen, Board of Appeal, Cluster Zoning Study Committee, and the Town Administrator on matters of mutual concern.

Upon the recommendation of the Planning Board, at a Special Town Meeting, the Town voted to accept three new streets.

Pilling Engineering Company was commissioned to update the official colored zoning map hanging in the Board of Selectmen's Room, and to print small black and white copies which may be purchased at the Town Hall.

The Zoning By-Laws booklet was also updated, and new copies printed.

In addition to duties as members of the Planning Board, Mr. Comeau was the Board's representative to the Massachusetts Area Planning Coun-

cil, Mr. Duffy was Chairman of the Master Plan Committee, and Mr. Cosman was representative to the Zoning By-Law Study Committee, and the Industrial Development and Finance Commission.

Meetings of the Town Planning Board are open to the public. The Board welcomes attendance of citizens at the meetings in order that they may better understand the duties and functions of their Planning Board.

Board of Appeal

GEORGE LYONS, *Chairman*

THOMAS J. KENNEDY, *Clerk*

DONALD DRAKE, *Vice Chairman*

Members

JOSEPH PENZA

RICHARD MOORE

Associate Members

EDWARD AVERI

JAMES DELANEY

The Board of Appeal meets on the first and third Wednesdays of each month, except in July and August. Meetings are usually held in the office of the Selectmen, in the Town Hall.

During 1970, there was only one change in the makeup of the Board. Lawrence Parente resigned as an Associate Member in May and no replacement was appointed. For the remainder of the year the Board operated with two Associates.

Formal advertised hearings numbered 59, the highest number in the last six years. Of these, 24 were for site plan approval, one of which was withdrawn. Of 21 requests for a variance, 13 were granted and 8 denied. Seven Special permits were granted and 2 denied. Of 10 miscellaneous requests, 5 each were granted and denied. In addition, there were 6 informal hearings. It was the busiest year in some time. The year ended with no carry-over of requests, all decisions having been made.

During the year the Planning Board issued a revised Zoning By-Law booklet and at the end of the year a revision of the Zoning Map was under review, prior to final printing. The Board thanks the Planning Board for accomplishing these revisions which incorporated the numerous zoning changes made over several years and will be of much assistance in enabling the Board to carry out its functions properly.

The Board was represented on a Zoning Study Committee established by Town Meeting vote. A number of recommended changes and problem areas have been referred to the Planning Board and this committee. A continuing review and amending of the Zoning By-Laws is needed to keep them in line with the times.

Although 1970 has been relatively free of litigation, the Board has sought the advice of Town Counsel on a number of occasions.

Industrial Commission

FRANK P. HILTS, *Chairman*

EDWARD A. CHAMBERS, *Vice Chairman*

GUY H. GIAMPAPA, *Secretary*

MARTIN T. DOONEY

CYNTHIA P. GREEN

RANDOLPH G. HOWARD

WILLIAM H. POWERS

The Industrial Commission meets on the second Tuesday of each month in the Appropriations Committee room of the Town Hall. The meetings are open to all the citizens of Walpole.

During the year 1970, the Commission finalized its work on an industrial brochure. Upon receiving the completed brochure in late spring, the members began a mass mailing to over 300 firms who were recommended from a list supplied by the Massachusetts State Department of Commerce.

In conjunction with the mailing of the brochure, advertisements were placed in the New England Real Estate Journal for a period of one year. An ad was placed in a special industrial supplement of the New York Times which was reprinted in book form in the New York Times Directory of Industrial Sites and distributed nationally.

During the year, members attended several committee meetings and public hearings relative to improving environmental conditions in Walpole. Some of the more important meetings attended were:

1. Hearing at the Norfolk County Commissioner's office to obtain approval of a grade crossing on Industrial Road within the Industrial Park. The results of this hearing were favorable to the town.
2. Attended several Board of Appeal public hearings in support of new and existing industries.
3. Meetings with the Master Planner and the Master Plan Committee. At one of these meetings we requested the Master Planner's objective viewpoints of the problems Walpole is encountering in attracting industry. The Commission's updated zoning map was used as an aid to determine future land use by the Master Planner.

At this time the Master Planner had not completed an in depth study but an early observation might indicate the industrial section of the zoning by laws would deter potential desirable industries.

This reconfirmed the thoughts of the Industrial Commission who three years ago initiated the establishment of the Zoning By Laws Committee for the purpose of updating these laws. By doing this we not only protect our citizens, we also provide industry with clear cut regulations.

Although the year 1970 has not been a productive one for new industry in Walpole, we are certain that with an upturn in the economic situation, improvements will be seen in this area in the near future.

ELDERLY HOUSING PROJECT GROUND-BREAKING—Walpole Housing Authority held ground-breaking ceremony in July for 64-unit state-aided elderly housing project. Left to right: Alphonse W. Query, Jr., housing authority counsel; Christopher McCarthy and Deputy Commissioner E. William Richardson, department of community affairs; Ernest A. Manocchio, Jr., authority chairman; Robert Cobb, former chairman; Gilbert W. Anderson, vice-chairman; John P. Dolan, assistant treasurer; Robert F. Rodowsky, treasurer; John P. Mogan, town administrator.

Housing Authority

ERNEST A. MANOCCHIO, JR., *Chairman*

GILBERT W. ANDERSON, *Vice-Chairman*

ROBERT F. RODOWSKY, *Treasurer* JOHN P. DOLAN, *Assistant Treasurer*

MRS. THELMA DE ROSA, *Secretary*

The Walpole Housing Authority held seventeen scheduled meetings during 1970.

Additional meetings were held with representatives of the architectural firm of Robert Charles Associates, regarding plans for Walpole's first state aided low-income elderly housing project. During the first few months of the year, the Authority obtained Planning Board and Appeals Board site plan approval for the Project.

Negotiations were completed relative to the acquisition of the Main Street (Goddard Estate) land and the site was purchased. A right-of-way off Main Street, to serve as the entrance to the site, was purchased from the Penn Central Railroad.

Applicants for the position of Clerk of the Works were interviewed. Mr. Eino Kivi, a long-time Walpole resident with many years of experience in the building trades, was employed.

Final plans for the housing project were approved by the Authority and the Department of Community Affairs in April. Public bids were invited and the general bid opening was held on May 12, 1970.

The lowest general construction bid was received from Paul Sardella Construction Company, Inc., of Roslindale, Massachusetts. On June 19, 1970, the construction contract in the amount of \$1,058,738.00 was signed with the Sardella firm, at the office of the Department of Community Affairs, in Boston.

Construction began on July 1, 1970, with the contract calling for completion within one year.

The Project will consist of eight, eight-unit buildings and a Community Building of Colonial design, in brick veneer. The apartment units are equal in size, consisting of one bedroom, living room, kitchen, and bathroom.

Provisions have been made in four units to accommodate handicapped persons. Special features in these units include shower enclosures rather than bathtubs and open cabinets under the kitchen sink to facilitate use by persons in wheel chairs.

Weekly on-site construction conferences have been held to insure orderly progress during construction. These meetings are attended by Robert F. Rodowsky, construction adviser for the Authority, a state inspector, a representative of the architect, the Clerk of the Works, and representatives of the general and the various sub-contractors.

Favorable fall weather enabled the contractor to close in all buildings prior to the first snow in December, thus assuring the continuance of interior work during the winter months.

As of December 31st, the project has been more than fifty percent completed.

During November and December, the Authority began to accept applications for occupancy, with nearly one hundred applications being received by the end of the year.

Industrial Development Financing Authority

SAMUEL R. HOFFMAN, *Chairman*

GUY H. GIAMPAPA, *Vice-Chairman*

NORMAN F. SELLERS, *Secretary*

EDWARD J. DELANEY, *Comm. Chairman*

RICHARD F. CASHEN, *Treasurer*

As there were no requests of this Committee during the year, the Committee has no report.

Permanent Advisory Building Committee

WILLIAM O. FORSELL, *Chairman*
W. LEONARD GOODWIN
HARRY J. KORSLUND

ALBERT C. MILLER, *Secretary*
EDWARD A. LAMORE
NORMAN F. SELLERS

This Committee makes an inspection each fall of all public buildings, schools, parks and playgrounds. It then makes detailed recommendations to the Selectmen, and through them, to the Appropriation Committee, for the maintenance and improvement of the various properties.

The Committee is helped greatly in its work by the proper authorities: the Town Administrator, the School Committee, the Library Trustees, the Recreation Committee, etc.

The amount recommended to be spent for proper upkeep in the coming year was \$166,000, practically the same amount as recommended a year ago, although the makeup of the items included was different. This represents less than 1½% of the value of the properties involved. Much of the total will be spent on schools and playgrounds.

Conservation Commission

The Walpole Conservation Commission meets bi-monthly to study and discuss the ever increasing ecological problem that, if ignored, will have far reaching effects upon our environment both now and in the future. The Commission reviews subdivision plans submitted by the planning board. It also works with the master planner to designate long term conservation areas and attempts to protect wetlands from encroachment by commercial development and by the Town.

ALLEN PROJECT

Mr. Douglas Sutcliffe, Mr. William Vannah, and others on the Commission, worked with the Soil Conservation Service and Mr. Allen's attorney to develop plans for the construction of a flood control dam and to establish boundaries of land that the Allens' may give for the project.

NORTH WALPOLE

The Commission started negotiations for acquisition of land for a nucleus of a conservation district in North Walpole.

CHEEVERS PROJECT

The Cheevers' property was purchased and self-help applied for. The Selectmen assured the Commission that the town would transfer to the Conservation Commission, the management of town owned land across the brook from the Cheevers' property.

NEPONSET RIVER CLEAN-UP

The Selectmen appointed Mr. Frank Farinacci, with the help of Mrs. John Farrell and others on the Commission, to organize and direct the clean-up of the Neponset River and its tributaries within the town of Walpole. The best participation, effort, and results within the state were given by the Town of Walpole.

NEPONSET RIVER VALLEY

The Conservation Commission participated in a DNR study of the Neponset River Valley, including Cedar Swamp.

Board of Assessors

EDWARD A. LAMORE, *Chairman*

ROBERT A. COBE, *Clerk*

INVESTMENTS AS OF DECEMBER 1970

Walpole Cooperative Bank (Stabilization Fund)	\$100,000.00
New England Merchant's National Bank (Certificate of Deposit)	300,000.00
First National Bank of Boston (Certificate of Deposit)	100,000.00
Norfolk County Trust Co. (Certificate of Deposit)	200,000.00
Capitol Bank and Trust Co. (Certificate of Deposit)	100,000.00
Total	\$800,000.00

On December 31, 1970 the bonded debt of the town was \$5,620,000.00
divided as follows:

School Project Loan 1954	\$280,000.00
East Junior High School	855,000.00
Old Post Road Elementary School	200,000.00
West Junior High School	1,495,000.00
Fisher School Addition	985,000.00

Sewer Construction (1964)	180,000.00	
Library Loan	160,000.00	
Water Loan (1967)	490,000.00	
Sewer Construction (1970)	175,000.00	
Const. and Equip. Water Pumping Station	800,000.00	
		<hr/> \$5,620,000.00

Our present debt limit is fixed by law at \$6,277,330.90. Of the \$5,620,000.00 total debt \$3,525,000.00 is outside the limit.

Appropriations must be made in 1971 for payments of bonds and notes amounting to \$630,000.00 and interest of \$237,450.00.

DEBT LIMIT

Each borrowing, depending on the purpose for which it is made may be either *inside* or *outside* of the debt limit, regardless of what the amount of the debt limit may be.

THE FOLLOWING TRUST FUNDS ARE IN THE CUSTODY OF THE TREASURER:

Charles Fales Scholarship Fund	Calvin G. Hartshorn Cemetery Fund
Joseph F. Leach Scholarship Fund	J. Ella Boyden Fund
Charles S. Bird Library Fund	Lewis Drinking Fountain Fund
Frederick E. Clapp Memorial Fund	Bird Scholarship Fund
Mary W. Hyde Library Fund	Henry P. Kendall Fund
Bertha Poore Library Fund	Cemetery Care Funds
William A. Beckler, Jr., Fund	Lucy J. Gould Library Fund

In 1970 income derived from the above funds totalled \$35,550.71.

Funds of Maple Grove Cemetery, Rural Cemetery and Walpole Plain Cemetery are also in custody of the treasurer:

MAPLE GROVE CEMETERY

Interest earned on investments	\$612.38	
Burial fee	840.00	
Sale of lots and care	358.00	
	<hr/>	\$1,810.38

WALPOLE PLAIN CEMETERY

Interest earned on investments	\$661.85	
Burial fee	1,080.00	
Sale of lots and care	850.00	
	<hr/>	\$2,591.85

RURAL CEMETERY

Interest earned	\$22.57	\$22.57
-----------------------	---------	---------

Interest earned on Time Deposits by the Treasurer in 1970 amounted to \$33,965.98. This amount is credited to the Excess and Deficiency Account.

Trust Funds

PARKER N. CHICK, *Chairman*

RICHARD F. CASHEN

CHARLES T. CONRAD

Income and disbursements for the calendar year 1970 for the Trust Funds administered by the Trust Fund Commissioners are as follows:

	Income	Disbursements
Emergency Medical Aid Fund	\$5,888.06	\$4,026.03
Charles Fales Scholarship Fund	5,375.32	5,368.00
Joseph S. Leach Scholarship Fund	10,306.82	10,300.00
Henry Kendall Fund	2,344.84	
Charles S. Bird Library Fund	748.39	318.93
Bertha Poore Library Fund (Walpole)	482.35	
Bertha Poore Library Fund (E. Walpole)	83.90	
J. Ella Boyden Library Fund	37.02	
Mary W. Hyde Library Fund	46.50	
Walpole Public Library	268.14	
Lucy Gould Library Fund	40.82	
Lewis Drinking Fountain Fund	52.97	
Frederick E. Clapp Memorial Fund	52.58	
Bird Scholarship Fund	2.51	
William A. Beckler, Jr. Trust Fund	7.29	
Calvin C. Hartshorn Burial Lot Fund	7.91	
Charles H. Guild Burial Lot Fund	49.70	
Abigail Guild Cemetery Fund	24.29	
Margaret A. Capen Cemetery Fund	66.36	
Susan Capen Cemetery Fund	22.55	
Clarissa Guild Cemetery Fund	22.55	
Mary Hyde Cemetery Fund	22.55	

Walpole High School graduates who were recipients of scholarships from the Charles Fales and Joseph S. Leach Scholarship Funds are named in the School Department report.

Capital Accounts of the various trust funds are shown in the Town Accountant's Balance Sheet, under the heading "Trust and Investment Accounts."

Walpole Chapter American Red Cross

PAUL B. WILLIAMS, *Chairman*

ROY S. BELCHER, *Vice-Chairman*

MRS. IDA COLE, *Secretary*

JOSEPH T. PARENT, JR., *Treasurer*

MRS. WILLIAM S. JACKSON, *Executive Secretary*

The Walpole Chapter has had a busy, rewarding year of service to the community.

We have acted upon 75 cases of service to military families, providing service men with emergency leaves, extension of leaves, notification of birth or death in the immediate family, financial relief, and two cases of compassionate reassignment of service men from overseas duty to state-side

duty because of serious illness of parent. We serve as a means of communication between the serviceman and the military, but in no way do we make any decisions.

The blood program is our largest expense, with over \$1,000 spent annually. During the past year Walpole Chapter collected 845 pints of blood in the community and nearly 1300 pints at the Massachusetts Correctional Institution. The blood from the prison is used only for fractionation into the components which is so badly needed. The canteen serves coffee and sandwiches to all donors at the Bloodmobiles and prepares suppers for the staff from Boston and the local volunteers. More blood donors and more volunteers are urgently needed.

Over 1,000 children participated in the swimming program at the pools in Walpole this past summer. The Water Safety Instructors are trained by the Red Cross and the Walpole Chapter pays \$65.00 for the training of each applicant.

Seventy-five ditty bags were made, filled and sent to Vietnam. Bags were given to all servicemen and women serving in Vietnam at Christmas.

The Motor Corps received over 150 requests for transportation during the year and was able to handle 95 percent of them.

The Disaster Committee is ready to help victims in case of fire or other natural disasters.

Visiting Nurse Association

MRS. LEBARON R. BRIGGS, *President*

MRS. JOHN E. HILL, *Vice-President*

MRS. C. EUGENE HARTSHORN, *Secretary*

MRS. HARRY W. HARDING, *Treasurer*

AURELIA M. NEWELL, R.N., *Senior Nurse*

M. ELEANOR WEISSENT, R.N., *Staff Nurse*

Permanent Substitute Nurses

PATRICIA L. GRUGNALE, R.N., B.S.

VIRGINIA L. FORBES, R.N.

As we reflect on the activities of the Visiting Nurse Association in the past decade, there emerges a changing concept of the traditional Visiting Nurse role. We have anticipated the changes that come from year to year with every organization to keep it viable and in step with the social and economic changes in the world around us.

With the advent of Medicare, new guidelines were introduced, policies were updated and nursing skills were augmented by other therapeutic services. Rehabilitation became a focal point indicating the great need for preventive programs—physical and mental. Although Medicare is still a vital part of our program, the services covered have increasingly become more restrictive. The percentage of Medicare visits of our yearly total visits for the past four years have been: 1967, 51 percent; 1968, 44 percent; 1969, 37 percent; 1970, 15 percent.

However, we are still one of the few social agencies in the area still able to work and give service on a "one-to-one" basis. During 1970 we made over 3,000 nursing visits on this basis and our several clinics would add many more personal contacts to this count.

There has been a decided trend toward closer communication between all disciplines concerned with Human Services preventing duplication of efforts and skills. The Department of Public Health Nursing has been advocating the merging of all nursing services in the community. We are fortunate in Walpole that the bedside nursing programs and Public Health services are providing a complete community service with close communication and assistance given to School Health Services. We are becoming increasingly involved with the rehabilitation of psychiatric and retarded patients as they return to the community.

Our Board of Directors is aware that continuing educational programs for staff development are essential in initiating and upgrading programs for the benefit of those we serve. Both staff nurses have now completed the B. U. Rehabilitation Nursing Workshop. Seminars and workshops were attended in the fields of cardiac, respiratory, psychiatric, retardation and drug rehabilitation programs.

As in the past three years, we were happy to provide students enrolled in the Henry O. Peabody School of Practical Nursing the opportunity to observe Public Health Nursing.

As part of our Public Health Program, we again assisted the school nurses in the Mumps Immunization Program for all elementary and Junior High students. The vaccine was also made available for five year olds and 247 of these children were immunized. Assistance was also given in the School Tuberculosis Survey Program and we have continued to offer the Mantoux skin test at the office. Flu Vaccine Clinics were held in October and December and the vaccine was given to a total of 142 Senior Citizens and 85 Town Employees.

Through the generosity of many—private donors, church and youth groups, merchants, industrial employees—the V.N.A. nurses were able to bring Holiday cheer for Thanksgiving and Christmas time to 16 Senior Citizens and 15 families consisting of 81 individuals in the form of food, clothing and toys. It is a "friendly town" and people still care and wish to share.

Council on Aging

MRS. OLGA HURLEY, *President*

ANTHONY PALLADINI, *1st Vice-Pres.* LEO TETREAULT, *2nd Vice-Pres.*

GORDON WOODBERRY

MRS. AURELIA NEWELL

SYDNEY D. CHAMBERLAIN, *Interim Secretary*

The first full year of activity has resulted in a well equipped and attractive Senior Citizen Center in the lower Blackburn Hall for our 1,600 plus "Seniors" in Walpole.

This has encouraged a busy program of craft projects, socials, tours and group meetings of the Senior Citizens. A start has been made on securing discounts from stores, theaters and for recreational events for our Senior Citizens.

A "Hot Lunch" program and a Transport service for Senior Citizens is under way. The Council instituted a Flu Vaccine Clinic and cooperated with the Bloodmobile program, in behalf of the Senior Citizens.

The Council has cooperated with the State Office on Aging on the various programs they are initiating for Senior Citizens, including the sharing of information and problems with other Councils in a Southeastern Regional Council on Aging.

In April, Charles E. Holt resigned, due to demands of his business, and Leo Tetreault was appointed and elected second vice president.

Mrs. Anna Halamaj resigned on November 10th due to other commitments. Gordon Woodberry was appointed to fill the vacancy. Sidney D. Chamberlain was elected secretary on an interim basis.

HISTORICAL COMMISSION shown at swearing in ceremony are, left to right: Town Clerk Louis E. Hoegler, Walter Fisher, Marjorie Spear, Frank Larabee and Eugene Hartshorn.

Historical Commission

In accordance with a vote at the April Special Town Meeting establishing a Walpole Historical Commission, the Selectmen appointed the following members: Walter Fisher, three year term; Frank Larabee, three year term; Theodore Howard, two year term; Marjorie Spear, two year term; Eugene Hartshorn, one year term.

Walter Fisher was elected chairman and Theodore Howard was elected secretary.

The Commission is active in gathering information on historic landmarks in Walpole and may make recommendations to the Selectmen from time to time concerning the protection and preservation of such buildings and places.

Information and pictures related to places and buildings of historic value will be gratefully received by the Commission.

Civil Defense

WILLIAM N. RING, *Director*

WALLACE R. DUNCAN, *Deputy Director*

Civil Defense means many things to many people, but essentially CD is town government operating during a disaster. With this concept in mind, a new emergency operating center has been established in the basement of the New England Telephone and Telegraph Company office

building on Stone Stret. Our appreciation is extended to the telephone company for their generous assistance in making this underground facility available to the town. The establishment of this center will enable CD to make realistic plans for sustaining local government during a disaster.

Officers of the CD unit are: William N. Ring, director; Wallace R. Duncan, deputy director; Edward Holmes, auxiliary police captain; Joseph S. Lord, communications officer; James E. Farmer, radiological officer; Dr. John J. Hayes, medical; Mrs. Clifford C. Cottrell, director of nurses; William N. Edwards, Jr., transportation; Ole H. Midttun, supply and welfare; Hector R. Pelletier, outdoor warning system; George C. Rummell, radio operator; Mrs. Alan D. Schmalz, public information.

Building Inspector

JOSEPH V. MARINARO, *Building Inspector*
WALTER C. ROCKWOOD, *Deputy Building Inspector*
MARIE A. WOODS, *Clerk, Part-time*

1970 Budget: \$14,570.28 — Expenditures: \$14,350.73

BUILDING PERMITS ISSUED	Valuation
45 Dwellings	\$833,000.00
65 Additions to Dwellings	180,675.00
36 Alterations to Dwellings	52,225.00
54 Re-roofing	41,633.00
5 Re-siding	7,495.00
9 Accessory Buildings	6,300.00
2 Conversions	7,000.00
4 Garages	22,500.00
1 Display Building	10,000.00
4 Commercial Buildings	64,000.00
8 Additions to Commercial Buildings	375,000.00
2 Alterations to Commercial Buildings	21,000.00
6 Repairs to Commercial and Residential Buildings	66,550.00
1 Housing for Elderly (10 Buildings, Fee of \$1,242.00 waived)	1,058,000.00
1 Nursing Home	1,000,000.00
33 Swimming Pools	66,012.00
11 Signs	8,945.00
10 Buildings Demolished	
297	\$3,815,135.00

Fees remitted to Town Treasurer were \$6,575.00.

Town Accountant

THEODORE S. KAISER, *Town Accountant*

	No. of Employees	Budget	Expenditures
1965	2	12,375.00	12,307.41

CLAIRE CONNOR (1973)

The finishing touches on the addition to the Main Library were finally completed early in the year and the building was accepted at the 1970 Town Meeting. A number of innovations have been made as a consequence of the library's expansion.

The multipurpose room makes it possible to offer a new service: accommodations for meetings of various kinds of groups whose purposes and activities conform with those of the library: information, ideas, education and the enjoyment of leisure through books, drama, music and various other art forms. The room can be used for formal programs such as lectures, discussions, etc., or for informal groups whose members get together to study a common problem, explore new ideas or to develop special skills or talents. It is not available for social events, money-making activities, religious ceremonies, commercial displays or the one-sided presentation of issues, political or otherwise. Library activities have priority.

The room has a seating capacity of about seventy and shares a small kitchen with the staff room, so light refreshments may be served. It still lacks display equipment and has no provision for hanging things on the walls, so no displays or exhibits have been attempted as yet—except the annual fall children's book fair.

There is no fee, unless an activity runs beyond the library's closing time and a custodian has to be kept overtime. Advance reservations are necessary.

During the year, this room was used sixty-seven times by about twelve different groups and for library activities: story hours, the book fair and staff meetings. In May a most successful investment course was presented by Jerome Phifer of Bache & Co. Hopefully, usage will pick up as the room's availability and assets become more widely known. A new designation other than "multipurpose" is greatly to be desired.

All of the main library's phonograph records, adult and juvenile, are now housed in the music room near the adult charging desk. The work of grouping these records by category has been completed, but many of the recordings are very old, some dating back to 1950. An extensive, aggressive, weeding and replacement project is called for. Once again, library record purchases have been augmented, with generous gifts from Columbia and RCA.

The collection of 8 mm films grew to almost sixty this year. Also housed in the music room, it consists of a variety of films designed to

appeal to many tastes and ages and is intended for the enjoyment of families having 8 mm projectors and who might like a change from their own home movies.

Local groups also have access to a large selection of 16 mm films through the Eastern Regional Library System. A catalog of available films is kept at the main library adult charging desk. One member of the circulation staff, Mrs. Grace Stornanti, has charge of the details of procuring and returning these films. With one exception they may be used by any group having the appropriate projection equipment. They may not be used for classroom instruction purposes, however. It is wise to plan two or three months in advance, or even earlier, because of the large number of other towns and cities also making use of this collection.

The children's room has acquired a tape recorder with earphones for listening and a collection of thirty-five cassettes of stories. Available only for in-the-library use, it has become a familiar sight to find small groups of children seated on the floor raptly listening with obvious enjoyment. One news story referred to this new service as "instant story telling" but no machine can match the person to person interaction of a live story teller and his young audience, and this service merely adds a new dimension to the library's offerings.

Bowing to popular demand, the Main Library fiction collection has been moved once again so that its bulk is on the first floor, leaving the mezzanine stacks for special grouping and eliminating the need for climbing stairs, which many people objected to.

The former junior high fiction collection has been placed in part of the mezzanine stacks, providing the nucleus of a young people's collection for the benefit of youngsters who might feel bewildered amongst the much larger adult fiction collection. Young students are by no means restricted to these books however, unless by an individual parental decree.

A selection of about seventy-five books printed in large, extra clear type has also been started at the Main Library for readers or would-be readers having trouble with conventional print. Some of the large print books are in the children's room, the remainder in the last section of the first floor adult fiction stacks. Chosen to appeal to many different interests, the collection ranges from westerns and mysteries to non-fiction, fairly recent best sellers and novels that are so good that no one should lack the opportunity to have read them. They have had an enthusiastic reception when discovered by those who need them. Although for practical purposes these books are shelved in the Main Library, each branch has a complete listing of them and branch patrons may make requests to their branch librarian.

BRANCHES

The East Walpole Branch Library has undergone some badly needed refurbishing. New bookshelves have worked toward alleviating overcrowded shelves. A room record cabinet was especially designed and constructed to make access to the records much easier. An exterior and

interior coat of paint and a new carpet have added immeasurably to the attractiveness of this small library.

Unfortunately, the same can not be said for the cramped, dank quarters of the North Walpole Branch, where everything possible in the line of erecting shelves and applying paint has been done to overcome its physical inadequacies. The fact that this library remains fairly attractive is largely due to the ingenuity and skill of its librarian.

GIFTS

It would be impractical to acknowledge all the gifts of books, records and miscellaneous items that have been presented to the library. Through the Woman's Club, a piano has been procured for the multi-purpose room. The Walpole Garden Club donated a fine selection of beautiful books on gardens and gardening. Norman Stilwell gave a large number of science fiction books that are being used as the nucleus of a science fiction section on the fiction mezzanine. Mrs. Lucy Sumner has contributed several new books in appreciation of an informal delivery service that has been established for her. A total of 226 gift books were added to the adult collections along with twelve juveniles and thirty-seven records. Many other books were offered to the library by people wanting to dispose of them, but for one reason or another they were found to be not suitable for the collection, and were passed along elsewhere such as to the prison or Morgan Memorial, etc.

Gifts to the library of books and records related to their special interests make excellent memorials and are very good ways of honoring people. A suitable bookplate is placed in each gift and everytime it's enjoyed by someone with similar interests or taste, the person so honored is remembered.

* * * * *

Walpole's library resources have also been supplemented throughout the year with deposit books from the Eastern Regional Library System Bookmobile. Over 1,000 adult and children's books have been selected and their local circulation was over 3,300. The System's bookmobile service, its interlibrary loan program, and the aforementioned film availability all add up to a substantial contribution to local library services. It also sponsors workshops and other professional programs for library staffers.

STAFF NOTES

Two members of the professional staff have enrolled in courses designed to develop their professional skills. Children's Librarian Louise Hawkins studied Children's Literature last winter and spring, while Dolores Munson, Assistant Librarian, is currently engaged in a course in book selection.

Twelve persons have left the library staff this year: five pages, five desk clerks and two highly respected custodians. Felix Thompson retired from the position at East Walpole Branch that he had held for many

years and Antonio DiFillipo, Main Library Custodian for slightly over one year, died suddenly in November. Despite his relatively short time on the staff, Mr. DiFillipo had quickly endeared himself to the staff and is sorely missed. Alonzo Blais is now East Walpole Custodian but by the end of the year no replacement had been found for the Main Library, where Kevin Jackson, a high school student substitute custodian is filling in valiantly.

CONGRESSWOMAN MARGARET HECKLER speaking with students following her message in the Walpole High gymnasium. Photo by student photographer Jay Delaney. Photo enlarged and processed by student photographer Jon Belcher.

REPORT OF THE SCHOOL COMMITTEE

It is apparent that our school population has caught up with the capacity of our buildings. This is particularly true in the case of the High School, which is already overburdened. Our Junior High Schools are only temporarily adequate, and the necessity of incorporating kindergartens into our Elementary Schools by 1973 finds us unprepared. The inevitable impact of population expansion resulting from industrial development along Routes 95, 495, and 128 means that piecemeal answers to our space problem will intensify the problem in forthcoming years.

With a great deal of help from our School Administration and acknowledged experts in the field of school planning, including our own Town Planner, the School Committee has been giving this matter of school capacity intensive and almost continuous study. Its objective has been to determine the solution best meeting the needs of the Town. This means housing our student population most economically throughout the life of the buildings, and facilitating the changes in educational programs required to prepare our children for the changing demands of adult life.

These goals, it is foreseen, can best be met by thorough planning of a new four-year high school. The benefits are several, and of virtually equal importance in the educational and numerical growth we have to make.

By transferring our present ninth grades into a new high school, the

HIGH SCHOOL READING CLASS MEETS IN CLOSET

present junior highs and the present high school can accommodate all grades five through eight very comfortably and efficiently for years to come—with only minor modifications to the present high school.

In turn, relieving our Elementary Schools of their present fifth and sixth grades increases their capacity immediately by a full third—making room for kindergarten classes, expanded library and small group instruction facilities, and future growth as well.

While the argument as to the relative merits of three and four year high schools may never be wholly resolved, there are undeniable advantages to a "K-4, 5-8, 9-12" system. A four year high school eliminates the need for duplication of many facilities and much equipment in junior high schools, and it is generally agreed that ninth graders have more in common with high school students than with younger children. Much the same is true about fifth and sixth graders, grouping better with the two grades above them.

Special mention should be made about the improvement a new high school will make in the education we are offering our students in the upper grades. Our programs for the sixty percent of the student body not planning to attend four-year colleges have been admittedly inadequate. A major reason for this is the obvious lack of space for an up-to-date technical-vocational curriculum. And the present high school, while suitable for use as a "middle school," is in reality a succession of additions dating back to the original 1908 structure. Further additions, as well as attempts to remodel the building for the kind of training the majority of

MEDIA CENTER AT FISHER SCHOOL

our students need and deserve, would, we are convinced, be poor economics and result in serious compromises in the school program.

On the other hand, a new four-year comprehensive high school, besides offering *all* our students equivalent opportunities for the education and training needed today, will enjoy an amount of State and Federal funding not available to other building plans. It all boils down to promising better educational facilities at lower over-all cost.

REPORT OF SUPERINTENDENT OF SCHOOLS

The new school year opened September 8, 1970 with over 70 new teachers meeting the returning staff members and the Administrators to plan for opening day.

On Wednesday, September 9th, 4725 pupils enrolled in our schools.

A three year comparison of enrollment figures shows a gradual increase at the secondary level and a decrease at the elementary level.

	1968	1969	1970
Elementary	2496	2380	2358
Junior High	1234	1249	1314
Senior High	907	1012	1053
	<hr/> 4637	<hr/> 4641	<hr/> 4725

The additions to the Fisher School were completed providing modern facilities for North Walpole elementary children and relieving great pressure at our West Junior High School.

MEDIA CENTER GYMNASIUM—MULTIPURPOSE ROOM AT PLIMPTON SCHOOL

The new media center makes the Fisher School an exciting school for both pupils and teachers to become involved in our rapidly changing educational scene.

The enrollment by schools follows:

Bird	Grades I - VI	356
Boyden	Grades I - VI	272
Fisher	Grades I - VI	579
Old Post Road	Grades I - VI	282
Plimpton	Grades I - V	216
Stone	Grades I - VI	519
East Junior High	Grade VI	82
	Grade VII	201
	Grade VIII	215
	Grade IX	214
West Junior High	Grade VI	52
	Grade VII	220
	Grade VIII	233
	Grade IX	222
Senior High	Grade X	359
	Grade XI	372
	Grade XII	313
Total		4725

In 1969 there were 290 children in Grades I thru V at the Blessed Sacrament School. This year there are 339 children in Grades I thru VI.

RESEARCH AND DEVELOPMENT

This is the fourth consecutive year in which the Walpole School Committee has continued to allocate one percent of its total budget for research and development purposes.

As in recent years, the results of curriculum studies undertaken by staff during the summer months have provided the major thrust to program changes now regularly occurring during the school year throughout the system.

Regularly one-third to one-quarter of the research and development monies have been re-allocated to a tuition reimbursement program. Teachers are reimbursed 50% of the tuition costs for any approved course which they successfully complete, or 75% if the course is part of a degree program related to their area of teaching. These expenditures are made on the assumption that those teachers who are currently upgrading or extending their own formal education are more likely to bring curriculum improvements to their classrooms.

A longitudinal study made over the last six years reveals some interesting changes that have occurred in the pattern of formal study undertaken by Walpole staff now numbering nearly 300.

	YEARS OF STUDY		
	Fall 1965 (before tuition reimbursement)	Fall 1967 (1st yr. tuition reimbursement)	Fall 1970 (4th yr. tuition reimbursement)
Number Teachers			
Receiving Reimbursement	33	37	49
Number Teachers Taking			
Courses at Four-year			
College or University	19	31	41
Number Teachers Taking			
Courses given by Norfolk			
Mental Health Clinic	13	6	3
Number Teachers Attending			
State Institutions of			
Higher Education	18	12	9
Number Teachers Attending			
Private Institutions of			
Higher Education	1	18	22
Number Teachers Enrolled			
in Degree Programs	8	8	31

While the increase in numbers of staff now taking courses in a single semester is related to overall staff increases during the last six years, it is obvious that more Walpole teachers are now engaged in formal study than prior to the initiation of the tuition reimbursement program.

The reason why an individual teacher should enroll in a course is affected by the School Committee policy that requires every teacher to take two credit hours of graduate study every three years for salary

"BYE-BYE BIRDIE" IN REHEARSAL

increment purposes. A salary differential awarded upon the completion of a Master's Degree has been in effect for many years and obviously provides an incentive for some to initiate formal study in degree programs. The recent extension of this differential from \$500 to \$700 increase that incentive.

There are several indications, however, that the tuition reimbursement program is itself responsible for changes in the pattern of formal study undertaken by staff. Many more teachers are now taking courses at degree granting four-year institutions of higher education as opposed to the less expensive courses or workshops offered by such institutions as the Norfolk County Mental Health Clinic.

A marked increase is noted in the numbers of teachers who have elected to take courses at private universities as opposed to state institutions of higher education. Presumably teachers are taking those courses considered to be of more value to them, and whereas the increase in cost to them personally is greater, the percentage feature of Walpole's tuition reimbursement program irrespective of total tuition costs finds two-thirds of the teachers now choosing to enroll in private institutions as compared to only one teacher in 1965.

Not only has there been more than a three-fold increase in the numbers of teachers enrolled in degree granting programs, but at least two are enrolled in post Master's degree study, and three in doctorate study.

All of the teachers receiving tuition reimbursement do not remain indefinitely on our staff. Five teachers are currently in the system who this year completed degree programs begun while in Walpole under the new reimbursement program. For many who presently remain in the school system, and for others who have recently left, the reimbursement program has provided an attractive feature in our recruitment program

"NEW STUDENT" ATTENDS OLD POST ROAD SCHOOL

designed to bring the most qualified teachers to Walpole. The many personal contacts which Walpole teachers have with staff from other school systems provide but one more of the many added benefits from such study.

In 1965, thirty-two percent of Walpole's staff held graduate degrees. Today, that number exceeds forty percent throughout the system, and sixty-five percent at the high school.

While the tuition reimbursement program remains but a part of a much larger research and development program, it is apparent that the reimbursement program has proven to be effective, and grows more so.

MEDIA SERVICES

During the past year, the Walpole Schools continued their steady progress toward developing media centers and effective media services in each school. Fisher School's new media center is the most visible sign of that progress. On any given day, literally hundreds of students use the media center, some consulting the specialist, for materials they need, others looking a filmstrips, large groups viewing films in an adjacent room, and all doing things they feel a personal need to do. Meeting individual needs for materials and personal assistance in their use (whether those materials be things to read or to listen to or to watch), and permitting students to pursue learning as best suits each of them, is probably the most important thrust of the media center program. All schools are moving in the direction already so visible at Fisher and Old Post Road.

Another thrust of media services is providing the classroom teacher with as wide a variety of instructional materials and devices as is needed

BIRD SCHOOL GRADE 5 RECORDER CLASS PRACTICES FOR ART FESTIVAL

to make the teacher's instruction effective. We are, this year, entering on the second year of a five year plan for the acquisition of the equipment necessary to use the materials, such as films, filmstrips, tape recordings, television programs, already and increasingly available to classrooms through the media services program. As the program develops, teachers and students will find themselves increasingly able to individualize learning and to pursue learning according to each student's particular needs.

READING DEPARTMENT

Under the direction of a system-wide coordinator, the Reading Department increased its staff during 1970 with the addition of a Learning Disabilities teacher and a second Junior High Reading Specialist. All schools, including the Senior High School, were serviced by a Reading Specialist. In grades one through nine, 260 children are currently working directly with these specialists.

Working closely with teachers from the English Department, the Reading Specialist at the High School has conducted intensive courses in reading speed and comprehension for juniors and seniors in the college preparatory program. In addition, he has worked with students at all levels of reading achievement and has helped teachers from various disciplines to make the teaching of reading skills an integral part of their instructional program.

SPEECH

Two system-wide Speech and Hearing therapists are currently working with 126 youngsters in Walpole. Their program primarily involves

meeting two or three times per week with individuals and small groups. All Summer Kindergarten, as well as first and second grade youngsters are screened for possible speech difficulties, such as delayed speech, stuttering, inadequate language development, and faulty articulation. Their grouping is determined by the type of skill being emphasized, the severity of the problem, and by the age level of the youngster. The program is one of continuous diagnosis and evaluation, with parent involvement considered a key factor.

WALPOLE HIGH SCHOOL CURRICULUM DEVELOPMENTS

New courses added in the past two years were:

1. Sociology
2. *Human Behavior
3. *Political Science
4. *Economics
5. Two-year U. S. History course for grades 10 and 11
6. *Computer Programming
7. *Mathematical Analysis
8. Earth Science
9. *Foods
10. *Clothing
11. Team Teaching—Sophomore English
12. Business English—Sophomores
13. Journalism
14. *Personal Typing
15. Clerical Record Keeping
16. Specialized Physical Education—Senior Girls
17. *Driver Education

* *Semester courses*

Other curricula innovations which are being studied for possible adoption in the near future are:

1. All traditional English courses changed to a system of electives on a semester basis.
2. All Senior year Social Studies courses on an elective basis.
3. Electronics course
4. Home Management
5. Work Study Program
6. An appreciation of Foreign Language for non-college students
7. Social Aspects of Science
8. Problems in Biology
9. Advertising Art and Layout
10. Textiles
11. Sculpture
12. Stage Design
13. Drawing and Painting

"LOON PROJECT"—WALPOLE HIGH SCHOOL

DATA PROCESSING SERVICES

Since September of 1968 we have had our own unit record equipment. With this equipment, we are presently printing report cards for the Senior High School, and the East and West Junior High Schools. Also, we are doing the master scheduling for the three secondary schools.

In addition, since September of 1969 with this equipment we have been doing the attendance for all schools in the Town of Walpole.

This past September we added to our equipment with the rental of a small 1620 Computer. With this additional equipment we can now plan to compute the age grade table, do school payrolls, school department budget, and physical inventory.

INSTRUCTION MATERIALS

In addition to the above-mentioned administrative uses of our equipment, we are using these as instructional devices.

Presently, we have one division of Data Processing which is open to Seniors. This course allows students to work with the various machines and to do some basic wiring of the various boards. Further, we have initiated a semester course this year in Computer Programming.

We have purchased additional equipment in the Metals Shop to update work there. Included is a new gas furnace.

This past summer, new chalkboards were installed in the Mathematics rooms in Section B.

We have continued to add various kinds of audio-visual equipment to update the Audio-Visual Department.

SPACE PROBLEMS

Our biggest problem at Walpole High School at present is the lack of adequate space.

During the past two years, the high school population has increased approximately 10% per year. We now have 1050 students in our three-year high school, and in 1971-72 we anticipate the student population to increase by approximately 100 additional students.

Two years ago we changed the daily schedule from a six-period to a seven-period day to increase the room availability. Further, we have found it necessary to use the Auditorium for Study Halls.

With this increased enrollment, it becomes extremely difficult to implement changes in curriculum.

We are presently studying and planning ways in which we can best continue an effective program.

STATISTICS FOR THE CLASS OF 1970

Walpole High School graduated 293 students on June 10, 1970. Considering the total class of 293 students, 217 have made application and

202 have been accepted for further study. The breakdown and a comparison with the classes of the four previous years is as follows:

	1966	1967	1968	1969	1970
Four Year Colleges	24	34	40	37	37%
Two Year Schools	20	17	10	16	21%
One Year Programs ...	13	8	12	8	6%
Nursing Schools	4	7	3	5	3%
Preparatory Schools	7	2	5	2	3%

This is a total of 70% of this year's students. For these students, the Guidance Department processed 670 applications and the students received a total of 380 acceptances.

The remainder of the class have future plans as follows:

	1966	1967	1968	1969	1970
Full-time Employment ...	15	14	15	14	16%
Armed Services	7.5	10	8	9	3%
Undecided	9	8	6	9	10%
Marriage	1%

SCHOLARSHIP AID

The graduating class received \$27,350 in scholarship aid. Most of this aid can be renewed yearly if the student maintains a satisfactory average set by the school or college. The above amount does not include the \$5,250 that will be given to deserving students at graduation.

	1966	1967	1968	1969	1970
College Scholarships ...	\$18,180	\$18,875	\$20,750	\$25,000	\$27,350
Local Scholarships	\$2,750	\$3,850	\$4,900	\$4,500	\$5,250
Work Scholarships	\$1,150	\$2,930	\$2,750
Loans	\$7,150	\$7,630	\$7,450

 Robert Rigoli—Mass. Bay Community College
 James Rockwood—East Coast Aero Tech.
 Bruce Russell—Cape Cod Community College

Stephen Smith—Chamberlayne Junior College
Donna Stanton—Mass. Bay Community College
Nancy Jill Stewaart—Modern School of Fashion Design
Carol Sybertz—Cape Cod Community College
Ann Tetreault—Burdett College
Denise Turco—Perry Normal School
Stephen Tuttle—Massasoit Community College
Stephen Unda—Franklin Institute
Douglas Woodard—Mass. Bay Community College
Myron Zajac—Berklee School of Music

STUDENTS ATTENDING ONE-YEAR PROGRAMS OF STUDY

Karin Allaire—New England School for Pediatrs
Lois Cecil—Hartford Airline Personnel Training School
Jane Cherven—Hartford Airline Personnel Training School
Frederick Day—Radio, Electronics, Television School
Pamela Duquette—Henry O. Peabody School
Robert Falconer—Simmons Floral School
Denise Ford—Henry O. Peabody School
Mary Grecho—Henry O. Peabody School
Ramona Hamilton—Henry O. Peabody School
Bradley Martin—Bluehills Regional Tech. School
Constance Sotir—X-Ray Tech. Goddard Hospital
Ronald Marzuolo—Radio, Electronics, Television School
Linda Paul—Henry O. Peabody School
David Pyne—Universal School of Heavy Equipment
Patricia Santomarcio—Henry O. Peabody School
Jean Smith—Henry O. Peabody School
Claire Spillane—Henry O. Peabody School

STUDENTS ENTERING DIPLOMA NURSING

Karen Gerrish—Newton-Wellesley Hospital
Lisa Godden—Greenfield Community College
Linda J. Marshall—Newton-Wellesley Hospital
Nancy Pazareskis—Massachusetts General Hospital
Mary Rull—Catherine Laboure School of Nursing
Debra Shontz—Massachusetts General Hospital
Patricia White—Children's Hospital

STUDENTS ENTERING PRACTICAL NURSING

Maura Driscoll—Henry O. Peabody School
Susan Wood—Beverly Hospital

STUDENTS ENTERING PREPARATORY SCHOOLS

Linda Bianco—Newman Preparatory
Richard Brooks—Bridgton Academy
William Burke—Newman Preparatory
Robert Connolly—Bridgton Academy
Stephen Davino—Newman Preparatory
Thomas Driscoll—Deerfield Academy

George Geehan—New Hampton Preparatory
Frank Love—Newman Preparatory
Jonathan Young—The Huntington School
James Nassif—Newman Preparatory School

STUDENTS ENTERING U. S. MILITARY SERVICE

John McTighe—U. S. Coast Guard
Jeremiah Collins—U. S. Navy
Bernard Kuhn—National Guard
Philip Lippolis—U. S. Navy
Herbert Roberts—U. S. Navy
John Saunders—National Guard
Wayne Smith—U. S. Navy
Stephen Terpstra—U. S. Army
Keith Urquhart—U. S. Navy

STUDENTS ENTERING FULL-TIME EMPLOYMENT

Patricia Albee—New England Telephone Company
Joan Allen—Mars Dept. Store
Elizabeth Barrett—Giant Store
Karen Barrows—Raytheon Company
Edwin Bodge—G. E. Comeau, Builder
Gilbert Boucher—Monte's Esso Station
Marilyn Brooks—Giant Store
Daniel Burke—Maritime Trucking Company
Antoinette Carpentiero—Maple Grove Manor
Michael Cassidy—To Work
Thomas Collins—Walpole Mobil Service Station
Janet Coyne—Kelly Girls Service
Neal DeWitt—U. S. Government—Air Control
Paul Donlan—Mitchell Construction Company
Jeanine Dower—John Hancock Insurance Company
Martha Ferrara—Accountant's Office, Town of Walpole
Edward Forsberg, Manson Contractors
Joanne Freni—Masoneilan Company
Garry Gale—Boch Dodge
Brenda Galvin—Howard Johnson's
Renee Garabedian—Blanchard Lumber Company
Richard Glencross—Cook's Garage
Linda Godden—New England Telephone
John Hayes—Maider's Mobil Station
Robert Hemmer—Richard A. Klein Company
Richard Henri—Walpole Bottling Company
Pamela Holman—Norwood Hospital
August Keller—Construction Work
Joanne LaCivita—Hayes-Bickford
Pamela LaCivita—New England Telephone Company
Mark Leighton—Professional Musician
Sara MacNeil—Blanchard Lumber Company
John Marchese—Pilgrim Instrument, Inc.

Janet McDonough—John D. Murphy, Realtor
Henry McGuire—R. A. Wright Construction Company
Patricia Mike—Hayes-Bickford
Linda Moore—New England Telephone Company
James Murphy—Mitchell Construction Company
John Nee—Kendall Company
Shirley Ostrom—F. W. Faxon Company
Patricia Rockwood—Walpole Bottling Company
Frederick Rogers—F. M. Hill Machine Company
Janet Spillane—Kendall Company
Cynthia Spooner—New England Telephone Company
Sandra Tracey—Dial Finance Company
Alan Tucker—Rococo Kennels
Claudia Willey—New England Telephone Company
Brenda Winthrop—To work
Robert Young—Sears Roebuck Company

There were still some students in this graduation class who had not made definite plans for the future. Many were trying to decide between permanent work, some type of further schooling or service. If there is a possibility of assistance, the Guidance Department stands in readiness to help these people.

Admissions officers from 71 post-secondary schools visited Walpole High School during the year 1969-70. Approximately 250 seniors were involved in these meetings which present the student an excellent opportunity to get preliminary information. If the student and the school or college show mutual interest, a personal visit to the campus is encouraged.

TITLE I PROGRAM

The summer of 1970 marked the fourth successful Title I Program supported by Federal funds. Approximately 75 children enjoyed a curriculum which emphasized language arts, math, and science. A staff of nine teachers, a reading specialist, guidance counselor, and nine teacher aides planned together and worked with small groups of 6 to 8 pupils.

Included in the five-week program were educational field trips to Babson College, Globe and Map Tour, Simpson Springs Bottling Company, and the Larz Anderson Antique Auto Museum. The philosophy of the Title I program is to include activities designed to aid a pupil in relating to his peers, his school and his community in a positive manner, thereby contributing to better citizenship. Through related activities, the program attempts to develop happy, self-confident children who recognize the value and satisfaction of learning and who establish realistic and worthy levels of aspiration. With the extensions of broader horizons, the children can find greater meaning in their lives today and be better able to contribute their full potential to society in the future.

1970 SUMMER KINDERGARTEN

Thirteen Pre-First Grade classes were conducted this year at the Boyden, Old Post Road and Stone Schools. Many of the children attending this voluntary program had previous Kindergarten experience and some had no previous experience in an organized program.

TITLE I PUPILS enjoy cookout on last day of summer program at Old Post Road School.

The goals of the program, in addition to a general orientation of the child to the school environment, included the fostering of self-expression, the developing of cognitive skills, and the extending of the child's knowledge of the world. Also, each child was screened by our specialists for speech and adjustment strengths and weaknesses.

Personal folders were compiled for each child. These folders contained as much information about the child as could be accumulated during the limited time period and were then forwarded to the school which the child was to attend in September.

Parents, children and teachers have reacted enthusiastically to the program and we believe that the program is very beneficial to the children involved.

Number of children registered	297
Number of children attending program	265
Number of school days	25

School	No. Attending	Average Daily Present	Average Daily Membership	Percentage of Attendance
Boyden	47	38.12	45.92	83.01
Old Post Road	85	70.32	84.92	82.81
Stone	133	107.55	132.8	82.83

Planning Board—Gerard E. Comeau for a term of five years.

Walpole Housing Authority—John P. Dolan for a term of five years.

ADJOURNED ANNUAL TOWN MEETING

March 2, 1970

Pursuant to the foregoing adjournment, the Adjourned Annual Town Meeting of Walpole was held in the High School Auditorium on Monday, March 2, 1970 at 7:30 p.m.

A quorum not being present, the Moderator declared the meeting adjourned to Monday, March 16, 1970 at 7:30 p.m. at the High School Auditorium.

Moderator Richard K. Troxell presided.

ADJOURNED ANNUAL TOWN MEETING

March 16, 1970

Pursuant to the foregoing adjournment, the Adjourned Annual Town Meeting of the Town of Walpole was held in the Walpole High School Auditorium on Monday, March 16, 1970.

The meeting was called to order at 7:30 p.m. by Moderator Richard K. Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

Town Clerk Louis E. Hoegler attested to the proper service and return of Warrant. The following Tellers were appointed by the Moderator: Rosemarie DeMichele, Arlene DeMichele, James Manninen and Richard Hurst. Levi Salonen was appointed Assistant Moderator. Representatives David C. Ahearn and Alan P. Danovitch were introduced.

It was *voted*: To regard the recommendations of the Appropriation Committee as main motions.

It was *voted*: To waive the reading of the Warrant.

ARTICLE 1.—No action (Annual Town Election held January 19, 1970.)

ARTICLE 2—Michael DeRosa, Chairman of the Future School Needs Committee, declared that their report would be rendered at the Special Town Meeting.

ARTICLE 2—William E. Petrie, Chairman of the Library Expansion Building Committee submitted the following report:

The Library Expansion Building Committee wishes to take this opportunity to advise that all construction on the new building and alterations to the existing building have been completed. The complete building is open to the public and we request that you take advantage of the new facilities as we are sure that you will find them extremely more attractive and functional. Past Town Meetings have appropriated a total amount of \$424,620.00 for the project, all of which was used to construct the building. The Federal Government reimbursed the town \$99,000.00 resulting in a net cost to the town of \$325,620.00.

It was *voted*: That the town accept the new and altered main library building and discharge the building committee with thanks.

ARTICLE 2—Chairman Levi Salonen submitted the Fiscal Study Committee report which appears on file in the Town Clerk's office.

ARTICLE 2—On Motion of the Board of Selectmen, the following Resolution was Moved and Seconded:

Inasmuch as the present MBTA assessment formula is unfair to a community the size of the Town of Walpole, and inasmuch as costs on this assessment have risen from three (3) cents on the tax dollar to forty-one (41) cents on the tax dollar within a five year period, without any increase in transportation service or facilities, it is resolved that the Town of Walpole shall petition the Legislature to provide a change in the MBTA assessment formula, giving tax relief to the citizens of the Town of Walpole.

On Amendment of E. John Ferrara, It was Moved, Seconded and *voted*: To move the question on amendment to the Resolution.

It was Moved and Seconded: That the Town petition the Legislature to allow a complete withdrawal of the Town of Walpole, as may be provided by law, from the MBTA services.

Motion was: *Defeated*.

It was *voted*: To move the question on the Main Motion.

Vote: *Unanimous*.

The Main Motion was then: Moved, Seconded and *Voted*.

ARTICLE 2—On Motion of the Board of Selectmen, it was *voted*: That a committee of five (5) members be appointed by the Moderator to study the duties and responsibilities of the Wage, Salary and Personnel Board. This study to take into consideration the impact of Municipal Collective Bargaining.

ARTICLE 2—On Motion of the Board of Selectmen, it was *voted*: That a committee of five (5) members be appointed by the Moderator to study space, land and needs of such space for town officials, committee rooms and hearing rooms, as well as space, land and needs of the School Department Administration and to bring such recommendations to the next Annual Town Meeting.

ARTICLE 2—On Motion of the League of Women Voters, the following Resolution was *voted*: That the Annual Town Meeting of 1970, under Article 2, instruct the Board of Selectmen to appoint a committee of either three (3) or five (5) members to act as an Advisory Board of Health. The Selectmen shall establish the terms for the members of said Board. Ex officio members of said Board shall include the Town Health Agent, the Town Medical Officer, the Town Sanitarian, and a representative from the Visiting Nurses' Association. Said Advisory Board of Health shall perform the regular duties of a Board of Health but shall be responsible to the Board of Selectmen, as they constitute the Board of Health.

VOTE: Yes—223; No—130.

ARTICLE 2—On Motion of William H. Powers, the following Resolution was Moved and Seconded: Whereas: The last five major appointments made by

the Board of Selectmen—namely the Town Administrator, Town Counsel, Town Engineer, Town Accountant and Building Inspector are out-of-town residents; and Whereas: one of these appointments was based on the condition that the appointee would move into the Town of Walpole and he has not; and Whereas: surveys show that an individual working in a Town of which he is a resident has more interest in its betterment: Therefore be it resolved that: All appointments made by the Board of Selectmen in which non-residents are applicants thereto and in which a Walpole resident has the same qualifications the Walpole resident shall be appointed. Be it further resolved that: A Walpole resident who qualifies on a civil service list be appointed by the Board of Selectmen before a non-resident applicant.

Motion was: *Defeated*.

ARTICLE 2—On Motion of the Appropriation Committee, it was *voted*: That a Town Charter and By-Law Study Committee be appointed. This committee consisting of seven (7) members shall be composed of the following: One member to be appointed by the Board of Selectmen, one member each, as elected, from the Appropriation Committee; the Personnel Board and the Walpole League of Women Voters. The remaining three members to be appointed by the Moderator from the Voter Registration List. The Moderator shall obtain the committee member names from the above groups and call an organizational meeting of the entire committee. This committee shall make recommendations for any changes in the Town Charter and/or the Town By-Laws which it deems advisable and submit articles for appropriate action not later than the 1971 Annual Town Meeting.

ARTICLE 2—On Motion of the Appropriation Committee, it was *voted*: That under Article 2 of the Annual Town Meeting, a committee of five (5) interested citizens, appointed by the Moderator from the Voter Registration List, be appointed to study the present School Cafeteria Program. The current cafeteria manager shall be considered as a member ex-officio.

It is requested that this committee study the present school lunch program and make a report of their findings to the next Annual Town Meeting in 1971. Suggested areas of study should include the following:

1. Elimination of the school lunch program.
2. Modification or revision of the lunch program with special study regarding possible
 - a. Use of vending machines
 - b. Use of outside catering
 - c. Alternates to the present hot lunch program.

ARTICLE 3—It was Moved, and *voted*: That the Town authorize the Town Treasurer with the approval of the Selectmen, to borrow money from time to time, in anticipation of the revenue of the financial year beginning January 1, 1970 and January 1, 1971 in accordance with the provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year in accordance with the provisions of General Laws, Chapter 44, Section 17. Vote: *Unanimous*.

ARTICLE 4—It was Moved, and *voted*: That the Town instruct the Selectmen to petition the Director of Accounts, Department of Corporations and Taxation, Commonwealth of Massachusetts, for an audit of the Town's Accounts, in accordance with Section 35, Chapter 44 of the General Laws. (Ter. Ed.) Vote: *Unanimous*.

ARTICLE 5—It was Moved, and *voted*: That the Town authorize the Collector in collecting taxes to use all means which the Treasurer may use when appointed Collector. Vote: *Unanimous*.

ARTICLE 6—It was Moved, and *voted*: That the Town authorize the Collector in collecting water rates and services to follow the rules and regulations of the Water Department. Vote: *Unanimous*.

ARTICLE 7—It was Moved, and voted: That the Town authorize the Collector in collecting sewer assessments to follow the rules and regulations of the Sewer Department. *Vote: Unanimous.*

ARTICLE 8—It was Moved, and *voted*: That the Town authorize the Selectmen to sell any and all property now owned by the Town, or to be acquired, as a result of foreclosing rights of redemption in said property.

ARTICLE 9—It was Moved, and *voted*: That the Town instruct the Selectmen to provide compensation under the Workmen's Compensation Act, in the amount of Forty Thousand Dollars (\$40,000.00) as recommended in Budget Item 198, for its laborers, workmen and mechanics, including all employees of the Town, regardless of the nature of their employment, or in case of death resulting from such injury, raise and appropriate money therefor.

ARTICLE 10—It was Moved, and *voted*: That the Town raise and appropriate a sum of money to pay its proportionate share in the Contributory Retirement System for the year 1970, in the amount of Eighty-Four Thousand Nine Hundred Sixty-Two Dollars (\$84,962.00) as recommended in Budget Item 199.

ARTICLE 11—It was Moved, and *voted*: That the Town raise and appropriate the sum of Eleven Hundred and Sixty-Six Dollars and Fifty-Two Cents (\$1,166.52) for the Veteran's Pension under Chapter 32, Section 59A of the General Laws.

ARTICLE 12—It was Moved, and *voted*: That the Town raise and appropriate the sum of Four Thousand Dollars (\$4,000.00) to print the 1969 Annual Town Reports.

ARTICLE 13—It was Moved, and *voted*: That the Town raise and appropriate the sum of Eight Hundred Dollars (\$800.00) for Christmas lighting.

ARTICLE 14—It was Moved, and *voted*: That the Town raise and appropriate the sum of Eight Hundred and Fifty Dollars (\$850.00) for the "Night Before the Fourth" celebration.

ARTICLE 15—It was Moved, and *voted*: That the Town raise and appropriate the sum of Eleven Thousand Dollars (\$11,000.00) for the rendering of nursing services in areas of health supervision for T. B. control, maternal and child health, control of communicable diseases, provisions of clinics, assistance to schools in T. B. testing, supervision of crippled children programs, and adult health supervision.

ARTICLE 16—It was Moved, and *voted*: That the Town raise and appropriate the sum of Nine Hundred and Seventy-Five Dollars (\$975.00) for use by the Council on Aging.

ARTICLE 17—It was Moved, and *voted*: That the Town raise and appropriate the sum of Forty Thousand Dollars (\$40,000.00) for the Conservation Commission to be placed in the Conservation Fund as authorized in Clause 51 of Section 5 of Chapter 40 of the General Laws.

ARTICLE 18—It was Moved, and *voted*: That the Town raise and appropriate the sum of One Dollar (\$1.00) and authorize the School Committee to renew a lease of Indenture with the Trustees of Francis William Park Trust to lease the land known as "The Bird Athletic Field".

ARTICLE 19—It was Moved, and *voted*: To move the question. *Vote: Yes—329; No—4.*

It was Moved, and *voted*: That *no action* be taken on this article to see if the Town will vote to raise and appropriate a sum of money to install fire alarm equipment in all schools.

ARTICLE 20—It was Moved, and *voted*: That the Town raise and appropriate the sum of Thirty-Five Thousand Dollars (\$35,000.00) to cover the expenses

of physical training, athletics, equipment and transportation of teams from the Junior and Senior High School as defined and specified in Chapter 658 of the Acts of 1950.

ARTICLE 21—It was Moved, and *voted*: That the Town raise and appropriate the sum of Twenty-One Thousand and Thirty-Five Dollars and Twelve Cents (\$21,035.12) to pay 1969 utility bills of the Walpole School Department. Vote: *Unanimous*.

It was Moved, and *voted*: That this Adjourned Annual Town Meeting be adjourned until March 17, 1970 at 7:30 P.M. The Moderator so declared at 10:30 p.m.

ADJOURNED ANNUAL TOWN MEETING

March 17, 1970

Fursuant to the foregoing adjournment, the Adjourned Annual Town Meeting of the Town of Walpole was held in the Walpole High School Auditorium on Tuesday, March 17, 1970.

The meeting was called to order at 7:35 p.m. by Moderator Richard Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

The following Tellers were appointed by the Moderator: Rosemarie DeMichele, Anna Barry, Richard Hurst and James Manninen.

ARTICLE 22—It was Moved, and *voted*: To move the question. Vote: *Unanimous*.

It was Moved, and *voted*: That the Town raise and appropriate the sum of Fifty-Seven Thousand Two Hundred Thirty-One Dollars and Five Cents (\$57,231.05) to cover the expenses of the School Cafeteria for the year 1970.

ARTICLE 23—It was Moved, and *voted*: That the Town raise and appropriate the sum of Fourteen Thousand Seven Hundred Dollars (\$14,700.00) for the maintenance of Chapter 90 roads in Walpole, said money to be used in conjunction with any amount which may be allotted by the State or County or both for this purpose.

Comment: Three-quarters of the appropriated amount is reimbursed by the state and county making the actual cost to the Town \$3,675.00.

ARTICLE 24—It was Moved, and *voted*: That the Town raise and appropriate the sum of Thirty-Five Thousand Two Hundred Dollars (\$35,200.00) for the construction of Chapter 90 roads in Walpole, said money to be used in conjunction with any money which may be allotted by the State or County or both for this purpose.

Comment: As in the previous article, three-quarters of this amount is reimbursed by the State and County. The actual cost to the Town is \$8,800.00.

ARTICLE 25—It was Moved, and *voted*: That the Town instruct the Selectmen to make a minimum charge of One Dollar (\$1.00) for water for Francis William Park, a public park in East Walpole, for the year 1969 and raise and appropriate the sum of Nine Hundred and Forty Dollars (\$940.00) to pay the difference between the said minimum charge of \$1.00 and the bill rendered by the Water Department for the year 1969 to Francis William Park.

ARTICLE 26—It was Moved, and *voted*: That the Town raise and appropriate by transfer from the water available surplus the sum of One Hundred Eighty-Six Thousand Six Hundred Fourteen Dollars and Fifty-Three Cents (\$186,614.53) to the water department for maintenance, construction and retirement of any and all bonds, notes and interest payable in 1970, a sum of money sufficient therefor, in accordance with Chapter 396 of the Acts of 1928.

ARTICLE 27—It was Moved and seconded: That the Town raise and appropriate the sum of Eight Hundred Sixty-Eight Thousand Three Hundred Twenty

Dollars (\$868,320) to construct and equip new water pumping facilities, new water facilities, new water storage facilities and new water mains; and that the appropriation be provided for as follows: Sixty-Eight Thousand Three Hundred and Twenty Dollars (\$68,320) to be transferred from the water available surplus account and that the treasurer with the approval of the Selectmen be and hereby is authorized to borrow the sum of Eight Hundred Thousand Dollars (\$800,000) under the provision of the General Laws, Chapter 44, Section 8, and to issue bonds or notes of the Town therefor payable in accordance with said Chapter 44 so that each issue of bonds or notes herein authorized shall be paid in not more than ten (10) years from its date.

On Amendment of Robert B. Boyd, Jr., It was Moved, Seconded and *voted*: To move the question amendment. *Vote: Unanimous.*

It was Moved and Seconded: That the Motion be amended by deleting the words "and equip new pumping facilities". Motion was: *Defeated.*

On Challenge of the Vote, a Standing Vote was taken with the following results: Standing Vote: Yes—110; No—241.

It was Moved, and *voted*: To move the Main Motion. *Vote: Unanimous.*

On two-thirds required vote, the Main Motion was then: Moved, and *voted*: Yes—313; No—31.

ARTICLE 28—It was Moved, and *voted*: That No Action be taken on this article to see if the Town will raise and appropriate a sum of money for the installation of a new 8" water main to replace the existing 6" main on Elm Street. (Petition of Vera H. Robinscn and others).

ARTICLE 29—It was Moved, and *voted*: That the Town raise and appropriate by transfer from the sewer assessment fund to the sewer department the sum of Seven Thousand Five Hundred Ninety-Five Dollars (\$7,595.00) for administrative expenses, maintenance, sewer connections, retirement of any and all bonds, notes and interest payable in 1970, a sum of money sufficient therefor, in accordance with Chapter 120 of the Acts of 1930.

ARTICLE 30—It was Moved and Seconded: That the sum of Three Hundred Forty Thousand Dollars (\$340,000.00) be appropriated to install sanitary sewers in the following locations:

North Street—Spear Avenue northwesterly approximately 2400 l. f.

Bowker Street—North Street approximately 400 l. f.

Sub-main Line—Main outfall near Allston Drive westerly approximately 200 l. f.

Main Street—Vicinity of Mylod and along Mylod to Allen Road approximately 2000 l. f.

That said sum of Three Hundred Forty Thousand Dollars (\$340,000.00) be raised as follows: One Hundred Thousand Dollars (\$100,000.00) be transferred from the sewer assessment fund, and that the Treasurer, with the approval of the Board of Selectmen, be and hereby is authorized to borrow the sum of not more than Two Hundred Forty Thousand Dollars (\$240,000.00) under the provisions of General Laws, Chapter 44, Section 7, Clause 1, and to issue bonds or notes of the Town therefor, payable in accordance with said Chapter 44 so that each issue of bonds or notes herein authorized shall be paid in not more than ten (10) years from its date.

It was Moved, and *voted*: For separate consideration of the following parts:

PART 1

North Street—Spear Avenue northwesterly approximately 2400 l. f.

Bowker Street—North Street approximately 400 l. f.

PART 2

Sub-main Line—Main outfall near Allston Drive westerly approximately 2000 l. f.

PART 3

Main Street—Vicinity of Mylod and along Mylod to Allen Road approximately 2000 l. f.

PART 4

To cover the financing of this Article 30.

PART 1

It was Moved, and *voted*: To remove North Street—Spear Avenue northwesterly approximately 2400 l. f., from the Motion.

To remove Bowker Street—North Street approximately 400 l. f. from the Motion.

PART 2

It was Moved, and *voted*: To keep Sub-main Line—Main outfall near Allston Drive westerly approximately 2000 l. f. in Motion.

Standing vote: Yes—191; No—77.

PART 3

It was Moved, and *voted*: To keep Main Street—Vicinity of Mylod and along Mylod to Allen Road approximately 2000 l. f. in Motion.

PART 4

It was Moved, and *voted*: To amend Part 4, to cover the financing of this Article 30, as follows: That the sum of Two Hundred Seventy-Eight Thousand Five Hundred Dollars (\$278,500.00) be appropriated to install sanitary sewers in the following locations:

Sub-main Line—Main outfall near Allston Drive westerly approximately 2000 l. f.

Main Street—Vicinity of Mylod and along Mylod to Allen Road approximately 2000 l. f.

That said sum of Two Hundred Seventy-Eight Thousand Five Hundred Dollars (\$278,500.00) be raised as follows: One Hundred Three Thousand Five Hundred Dollars (\$103,500.00) be transferred from the Sewer Assessment Fund and that the Treasurer, with the approval of the Board of Selectmen, be and hereby is authorized to borrow the sum of not more than One Hundred Seventy-Five Thousand Dollars (\$175,000.00) under the provisions of General Laws, Chapter 44, Section 7, Clause 1, and to issue bonds or notes of the Town therefor, payable in accordance with said Chapter 44 so that each issue of bonds or notes herein authorized shall be paid in not more than five (5) years from its date.

On a 2/3 required vote, It was Moved, and *voted*: That the sum of Two Hundred Seventy-Eight Thousand Five Hundred Dollars (\$278,500.00) be appropriated to install sanitary sewers in the following locations:

Sub-main Line—Main outfall near Allston Drive westerly approximately 2000 l. f.; Main Street—Vicinity of Mylod and along Mylod to Allen Road approximately 2000 l. f.

That said sum of Two Hundred Seventy-Eight Thousand Five Hundred Dollars (\$278,500.00) be raised as follows: One Hundred Three Thousand Five Hundred Dollars (\$103,500.00) be transferred from the Sewer Assessment Fund and that the Treasurer, with the approval of the Board of Selectmen be, and hereby is authorized to borrow the sum of not more than one Hundred Seventy-Five Thousand Dollars (\$175,000.00) under the provisions of General Laws, Chapter 44, Section 7, Clause 1, and to issue bonds or notes of the Town therefor payable in accordance with said Chapter 44 so that each issue of bonds or notes herein authorized shall be paid in not more than five (5) years from its date. Vote: Yes—188; No—67.

It was Moved, and *voted*: That this Adjourned Annual Town Meeting be adjourned to March 18, 1970. The Moderator so declared at 10:55 P.M.

ADJOURNED ANNUAL TOWN MEETING

March 18, 1970

Pursuant to the foregoing adjournment, the Adjourned Annual Town Meeting of the Town of Walpole was held in the Walpole High School Auditorium on Wednesday, March 18, 1970.

The meeting was called to order at 7:35 P.M. by Moderator Richard Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

The following Tellers were appointed by the Moderator: Clifford E. Barnes, Jr., Joyce R. Barnes, Anna Barry and Richard Hurst.

On Motion of Barbara P. Angus, It was Moved, and *voted*: That the next session to which we adjourn this Town Meeting be held on Monday, March 23, 1970 at 7:30 P. M. in this High School Auditorium.

203 Recommended that all sums voted are to be expended in accordance with, and restricted to, those items listed in the budgets approved by the Appropriation Committee unless specified authorizations for a change therein are voted by the Appropriation Committee.

It was Moved, and *voted*: That this Adjourned Annual Town Meeting be adjourned to March 30, 1970. The Moderator so declared at 11:00 P.M.

ADJOURNED ANNUAL TOWN MEETING

March 30, 1970

Pursuant to the foregoing adjournment, the Adjourned Annual Town Meeting of the Town of Walpole was held in the Walpole High School Auditorium on Monday, March 30, 1970.

The meeting was called to order at 7:40 P.M. by Moderator Richard K. Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

The following Tellers were appointed by the Moderator: Rosemarie De-Michele, Anna Barry, James Manninen and Richard Hurst.

ARTICLE 48—It was Moved, and *voted*: That the Town accept Industrial Road from Station 0 + 0 at Main Street to station 4 + 02 at the N. Y., N. H. & H. R. R. right-of-way, also from station 5 + 11 at N. Y., N. H. & H. R. R. right-of-way to station 11 + 37 as shown on plan entitled "Plan of Land in Walpole, Mass by Walpole Engineering Department, John P. Mogan, Town Engineer, dated September 26, 1969. *Vote: Unanimous.*

ARTICLE 49—It was Moved, and *voted*: That No Action be taken on this Article to see if the Town will vote to confirm, ratify and amend the zoning status of the districts in the easterly vicinity of Union Street.

ARTICLE 50—It was Moved, and *voted*: To close debate. *Vote: Yes—293; No—27.*

It was Moved and Seconded: That the Town of Walpole amend its Zoning By-Law for Limited Manufacturing and Industrial Districts in the following manner:

By repealing that portion of Section VI-8 which establishes side yard widths and rear yard depths for Limited Manufacturing and Industrial Districts, where they abut a Residential District, and

By adopting the following provisions to be hereinafter known as Section VI-16-C and Section VI-16-D, and re-designating the present Section VI-16-C as section VI-16-E and re-designating the present Section VI-16-D as Section VI-16-F:

VI-16-C: In a Limited Manufacturing District, where the lot abuts, or is within one hundred fifty feet (150') of, the side or rear boundary line of any Residential District (including any Residential District in an adjacent municipality), the provisions of Paragraphs A and B of Section VI-16 shall be enforced and there shall be provided on said lot within one hundred fifty feet (150') of said boundary line a total setback and buffer strip, as follows:

(1) The portion of such buffer strip within one hundred feet (100') of the district boundary line shall be used only for, and maintained as, a planting area for lawns, trees, shrubs or other landscape materials to provide a park-like area of separation between the districts.

(2) The remaining fifty feet (50') of space may be used for off-street parking or other permitted open uses, but shall not contain any permanent structure (whether or not used for limited manufacturing).

VI-16-D. In an Industrial District where the lot abuts any residential district (including any residential district in an adjacent municipality), the provisions of paragraphs A and B of Section VI-16 shall be enforced and there shall be provided on all portions of said lot, except along a street, a buffer strip seventy-five feet (75') wide as follows:

(1) The portion of such buffer strip fifty feet (50') from the district boundary line shall be used only for, and maintained as, a planting area for lawns, trees, shrubs or other landscape materials to provide a park-like area of separation between the districts.

(2) The remaining twenty-five feet (25') of space may be used for any accessory use other than buildings.

Motion was *Defeated*. Yes—120; No—223.

ARTICLE 27—The Moderator directed the Clerk that Roger F. Turner's request, and the Moderator's denial of this request, to further consider Article 27 for cause stated, be made part of the record.

ARTICLE 51—It was Moved, and *voted*: To close debate.

It was Moved and Seconded: That the Town amend its zoning by-laws to change from Limited Manufacturing District to Residence A District the following property:

Commencing at the Northerly corner of Assessors Parcel 1403 thence running Southwesterly and in various courses by the bounds of the Assessors Parcel 1403-28 thence running Easterly across Assessors Parcel 1403-1 to the point of beginning.

Motion was *Defeated*: Yes—72; No—164.

ARTICLE 52—It was Moved, and *Voted*: To close debate.

It was Moved and Seconded: That the Town vote to adopt parliamentary rules to govern Town Meeting procedure as set forth in Town Meeting Time "A Handbook of Parliamentary Law" by Richard A. Johnson, Benjamin A. Trustman, and Charles Y. Wadsworth, published by Little, Brown and Company, 1962. Motion was: *Defeated*.

ARTICLE 53—It was Moved, and *voted*: That the Town raise and appropriate the sum of One Hundred Thousand Dollars (\$100,000.00) for the stabilization fund.

ARTICLE 54—It was Moved, and *voted*: That the Town approve the following balances be lapsed and amounts be transferred to the Excess and Deficiency Account:

<i>Year</i>	<i>Article</i>		
1966	19	Special Town Meeting—Revaluation of Real Estate ...	\$5,783.63
1969	56	Annual Town Meeting—Common Street Sidewalk ...	913.63
1967	32	Turco Field Improvement	113.32
			<hr/>
			\$6,810.58

ARTICLE 55—It was Moved, and *voted*: That the Town raise and appropriate by transfer from the free cash portion of the Excess and Deficiency account the sum of Four Hundred Thousand Dollars (\$400,000.00) for the purpose of reducing the amount to be raised by taxation by the assessors of the Town for the current year (1970) and raise the balance by taxation.

There being no further business to come before this meeting, it was moved, seconded and *voted* that this Annual Town Meeting of 1970 be dissolved. The Moderator so declared at 10:40 P.M.

MOVE TO RECONSIDER ARTICLE 27

To the Moderator of the Annual Town Meeting of Walpole—1970:

Move a point of privilege under Article 27—voted to raise \$868,320, including a bond issue of \$800,000 under c44, sec. 8.

First, the article submitted for vote fails to comply with the intent of the statue—section 8, c44 "Towns may borrow outside the debt limit," the purpose of the loan is vague and indefinite, it can not be supported under sec. 10.

Secondly, assuming the text of the article does comply—the move to support the article was represented to comply with a report by Geraghty & Miller, Inc., consulting ground-water geologists, December 1969. This report is a public record. The representation to support the article can not be supported by the report.

Significant testimony by the Town Administrator in part was: "The program was based on information contained in a survey made by Geraghty & Miller . . . well No. 2 in the Mine Brook Valley had a negligible effect on the water level, the area can sustain ground water level and could support more wells . . . new wells and pumping facilities in the 6 acre area would double the water production."

This testimony is not supported by the report:

On page 3 of the report, the table reports a yield of well Mine Brook No. 1 from January to November 1969 of 159,884,000 gallons;

On page 4 of the report the table reports a yield of well Mine Brook No. 2 from January to November 1969 of 128,157,100 gallons. The total is 288,041,100 gallons.

The report states on page 7: "It appears, under present conditions, Mine Brook Valley could support more wells equal to the yield of the existing Mine Brook Well 2." (This is 44% of the total yield.)

The report does not recommend "double the water production" as represented to the town meeting. Furthermore, the report raises a doubt regarding the yield. Page 7 of the report states: "To ascertain . . . development without adversely affecting the swamp or the stream level *would require* a careful progressive program . . . cumulatively added to ascertain the net affect."

Forty-four percent or 128 million gallons falls far short of 288 million gallons.

The Times reports a further statement of the Town Administrator completely out of context with the question: "Turner made a mistake of draining the pond." In the fall of 1968 the lower dam was repaired, but only after the boards ceased to hold a normal level.

Geraghty & Miller's report suggests that the stream measurement on Mine Brook reveals a distinct correlation with the dam level. This reference can not be supported with the experience of the pond level during 1960. If the reference includes the experience of the pond level during 1968—it obviously is in error. The official report—Department of the Interior, Geological Survey clearly discloses that the flow of surface water into the pond from the Mine Brook area between the pond and the town of Medfield ceased on the 29th of July 1968. This date coincides with the date well No. 2 started to operate in such area. It is equally clear that the level of the pond on or about 29th July 1968 had precisely no effect upon the stream flow.

Another important matter regarding plan to produce more wells in the Mine Brook area is reported by the Geraghty & Miller Co. namely, valid evidence of iron bacteria in the Mine Brook wells, reduction of yield, and partial blocking by encrustation matter on the screen of the Mine Brook wells—page 6. *This fact was not reported* to the meeting at the time article 27 was voted.

Granted, iron bacteria can be treated chemically. The question is—does the cost justify the treatment. It is my understanding the town of Rockland has paid \$35.00 per million gallons. The yield reported for the Mine Brook wells for eleven months in 1969 is 288 plus million gallons. If the production is doubled, the annual production of the Mine Brook area would be over 600 million gallons. Furthermore, *it was not disclosed*—cost of plant and equipment to treat the wells. Similar treatment plants cost in the vicinity of \$200,000. Thus, an annual tax assessment of approximately \$50,000. If production were certain—this is one thing, it is something quite different when the production is speculative.

Double the present yield can not be supported by the record, not even Geraghty & Miller has made an opinion that the yield can even be increased by 44%. Page 7 of their report makes a *suggestion* merely that Mine Brook area can sustain additional ground-water development (without adversely affecting the swamp or the stream level.)

If Article 27 is not held for further study, a very serious legal question may arise regarding proper procedure under the statute, but of greater importance to every voter—the question of higher taxes is inevitable.

I urge further consideration on the question of Article 27.

Respectfully submitted,

ROGER F. TURNER

ADJOURNED SPECIAL TOWN MEETING

April 29, 1970

Pursuant to the foregoing adjournment, the Adjourned Special Town Meeting of the Town of Walpole was held in the West Junior High School Auditorium on Wednesday, April 29, 1970.

The meeting was called to order at 8:10 P.M. by Moderator Richard K. Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

Town Clerk Louis E. Hoegler attested to the proper return of the Warrant.

The following Tellers were appointed by the Moderator: Arthur Frink, William Wakefield, Mary Harrington and Mary Walsh.

Richard Holman, Chairman of the Selectmen, and Willis McLean Chairman of the Annual Report Committee, presented Robert Finneran in acknowledgment of his cover design for the Annual Report booklet.

It was Moved, and *voted*: To dispense with the reading of the Warrant.

It was moved, and *voted*: That all recommendations of the Appropriation Committee be considered Main Motions.

ARTICLE 1—It was Moved, and *voted*: That the Town accept Section 8D, Chapter 4 of the General Laws relative to the establishment of a local historical commission and that the Selectmen appoint such a commission to consist of five members to serve as follows: one member for a one year term; two members for two year terms; and two members for three year terms; thereafter their successors to be appointed for three year terms.

ARTICLE 2—It was Moved, and *voted*: That No Action be taken on this article to receive a report of the Committee on Taxation of forest land, farm land and open space land, appointed by the Moderator under Article 2 of the Adjourned Annual Town Meeting of May 19, 1969.

ARTICLE 3—It was Moved, and *voted*: That the Town receive a report of the Future School Needs Committee and that this report be placed on file without ratification of any action taken or authorization of any action proposed.

ARTICLE 4—It was Moved, and *voted*: To close debate.

It was Moved and Seconded: That the town raise and appropriate the sum of Fifty Thousand Dollars (\$50,000.00) to secure the services of an architect for preliminary plans and specifications to carry out phases A and B of the recommendations of the Walpole Future School Needs Committee as outlined in their report to the Special Town Meeting of April 1970, and that a Schools Building Committee of five members be appointed by the Moderator for this purpose.

Motion was: *Defeated*. Yes—106; No—126.

ARTICLE 5—It was Moved, and *voted*: That the Town raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00) to provide adequate lighting in the Senior High School Auditorium.

ARTICLE 6—It was Moved, and *voted*: That the Town raise and appropriate the sum of Two Thousand Dollars (\$2,000.00) to connect the Town Hall to the existing standby generator at the Center Police-Fire Station.

ARTICLE 7—It was Moved, and *voted*: That the Town raise and appropriate the sum of Twenty-Eight Hundred Dollars (\$2800.00) to purchase an automobile for the Building Inspector.

ARTICLE 8—It was Moved, and *voted*: That the Town raise and appropriate the sum of Forty-Eight Thousand Dollars (\$48,000.00) for the construction of an addition to the Town Garage for the Building Repairs Department.

ARTICLE 9—It was Moved, and *voted*: That the Town raise and appropriate the sum of Twenty-Two Hundred and Fifty Dollars (\$2250.00) for Fire Alarm Department Salaries and materials to cover costs connected with the Fisher Street reconstruction project.

ARTICLE 10—It was Moved, and *voted*: That the Town raise and appropriate the sum of Fifteen Hundred Dollars (\$1500.00) for Fire Department salaries and materials to cover tree trimming around fire alarm circuit wires.

ARTICLE 11—It was Moved, and *voted*: To close debate.

It was Moved, and *voted*: That the Town substitute for the present Walpole Building By-Laws the BOCA Basic Building Code, Fifth Edition, 1970 with the following modifications:

ARTICLE 1

Administration and Enforcement

Section 100.00 — Scope

100.1 Title: Insert "Town of Walpole" in place of (name of municipality) lines 2 and 7.

Section 105.0 — Change in Existing Use

105.1 Continuation of Existing Use: Insert actual date of adoption of this by-law in place of (date of adoption of this code) line 2.

Section 107.0 — Department of Building Inspection

107.1 Building Official: Insert "Town of Walpole" in place of (name of municipality) line 2.

107.2 Appointment: Insert "Board of Selectmen" in place of (chief appointing authority) line 2.

107.3 Organization: Delete in its entirety and insert in its place: "107.3 Organization: The Building Official, with the advice and authorization of the Board of Selectmen, shall appoint such officers, technical assistants, inspectors and other employees as shall be necessary for the administration of the Basic Code."

107.4 Deputy: Delete in its entirety and insert in its place: 107.4 Deputy: The Board of Selectmen may designate a Deputy Building Official".

107.5 Qualifications of Building Official: Delete in its entirety and insert in its place: "107.5 Qualifications of Building Official: The Board of Selectmen shall determine the required qualifications for the Building Official, the Deputy Building Official, and the officers, technical assistants, inspectors and other employees of the Department of Building Inspection except that no person shall be appointed as Building Official who has not had at least five years' experience as a builder, civil engineer or architect or as a superintendent, foreman or competent mechanic in charge of construction."

107. Restriction on Employees: Delete 107.7 in its entirety and insert in its place: "107.7 Restriction on Employees: All employees of the Department of Building Inspection shall observe the provisions of the laws of the Commonwealth of Massachusetts as they relate to conflict of interest".

Section 108.0 — Duties and Powers of Building Official

108.7 Annual Report: Insert "Board of Selectmen" in place of (chief authority) line 2.

Section 114.0 — Permits

114.3 Previous Approvals: Insert "one (1) year in place of (two (2) years) line 6 and 7.

Section 118.0 — Fees

118.2 New Construction and Alterations: Delete 118.2 in its entirety and insert in its place: "118.2 New Construction and Alterations: Fees for permits for building, alteration, demolition, removal, signs or display structures, shall be established and, from time to time, amended by the Board of Selectmen in such manner as they may deem fit".

Delete 118.3, 118.4 and 118.5 in their entirety.

Section 119.0 — Volume Computation

Delete entire section in its entirety.

Section 120.0 — Indemnity Bonds

120.1 Sign Bonds: The sign contractor, the erector or the owner of every sign or billboard for which a permit is required shall be bonded in an amount as the Selectmen may determine, for the erection and maintenance of all such signs or billboards in accordance with the provisions of section 1408.

Sections 120.0 Thru 129.0 To Be Renumbered in Accordance With
Table of Contents as 121.0 Thru 130.0

Section 123.0 — Violations

123.3 Violation Penalties: Insert in the space provided on Line 7, the amount \$20.00.

Section 124.0 — Stop-Work Order

124.2 Unlawful Continuance: Insert in the space provided on Line 4, "20.00" and delete (or more than — dollars) and put in its place "per day" lines 4 and 5.

Section 127.0 — Board of Survey

Delete 127.2, 127.3, 127.4, 127.41, 127.5, 127.51 and 127.52 in their entirety. (See Chapter 143, Section 8 of the General Laws of Massachusetts).

Section 128.0 — Board of Appeals

Delete 128.1 through 128.6 inclusive and insert in place thereof the following:

The Board of Appeals, appointed under General Laws Chapter 40A, Section 14, shall act as a Board of Appeals under this bylaw. Said Board of Appeals shall have all the powers and duties of Boards of Appeals under Chapter 40A of the General Laws, as amended, and in addition, all the powers and duties described in the zoning by laws of the Town of Walpole.

"Any person aggrieved by any order or decision of the Building Inspector may appeal to the Board of Appeals. However, no such appeal should be heard by said Board unless, within ten days after the order or decision, a notice of said appeal is filed with the Town Clerk and an application for a hearing is filed, accompanied by the specified fee".

ARTICLE 2

Definitions and Classifications

Section 200.0 — Scope

Insert "Town of Walpole" in place of (name of municipality) on Line 3.

200.2 Application of Other Laws: Insert: "Town of Walpole" in place of (name of municipality) line 3.

210.3 Use Group L-2 Structures. Delete (Mobile homes may be used as single-family dwelling when complying with requirements of section 425.0).

ARTICLE 3

General Building Limitations

Section 300.0 — Scope

Insert "Town of Walpole" in place of (name of municipality) on Line 2.

301.1 Fire District No. 1: Insert in space provided on line 4, the word "none".

301.2 Fire District No. 2: Insert in space provided on Line 4, the word "none".

ARTICLE 4

Special Use and Occupancy Requirements

Section 425.0 — Mobile Dwelling Units

Delete entire section.

Section 429.0 — Swimming Pools

429.83 Swimming Pool Safety Devices: Insert "six (6) feet" in place of (four (4) feet) line 8.

ARTICLE 12

Section 1213.0 — Automatic Sprinkler Systems

1213.1 Buildings Requiring Sprinklers. Add to the printed text the following: No building shall be used in part or in whole as a rest home for the aged, convalescent or nursing home, as defined in Commonwealth of Massachusetts Rules and Regulations for the Licensing of Convalescing or Nursing Homes, unless in every instance such buildings are equipped with a complete automatic sprinkler system.

Approved automatic sprinkler protection shall be provided throughout all hospitals as follows:

(a) In all buildings of Type 1A, 1B, 2A, 2B and 2C, construction over one story in height or having a basement or cellar.

(b) In all buildings of Type 3A, 3B, 3C, 4A and 4B construction.

For the purpose of this section, a hospital is defined as a building used for medical, obstetrical or surgical care, on a 24 hour basis, of four or more patients and shall include general hospitals, mental hospitals, tuberculosis hospitals, children's hospitals and any such facilities providing in-patient care.

ARTICLE 13

Precautions During Building Operations

Section 1308.0 — Excavations

1308.21 Deep Excavations: Insert in the space provided on Line 2, the depth of "Four Feet".

1308.22 Shallow Excavations: Insert in the space provided on Line 2, the depth of "Four Feet".

ARTICLE 14

Section 1408.0 — Bonds and Liability Insurance

1408.1 Filing Bond: Delete "In the sum of as herein required and as specified in Section 120.0" and insert in its place in the space provided on Lines 3 and 4, the words, "as the Selectmen may determine".

1408.2 Amount of Bond: Insert "Town of Walpole" in place of (name of municipality) on Line 4.

Section 1416.0 — Illuminated Signs

1416.1 Certificates: At the end of text insert "and the Massachusetts Electrical Code".

ARTICLE 17

Plumbing, Drainage and Gaspiping

"Refer also to Massachusetts State Plumbing Code, Chapter 358, of Acts of 1965."

SPECIAL TOWN MEETING

December 7, 1970

Pursuant to the warrant, a Special Town Meeting of the Inhabitants of the Town of Walpole, qualified to vote in elections and Town affairs, was held in the auditorium of the Walpole High School on Monday, December 7, 1970.

All statutes and by-laws concerning the calling of a Special Town Meeting were fulfilled and a quorum was present. Moderator Richard K. Troxell called the meeting to order at 7:35 P.M.

Town Clerk Louis E. Hoegler reported proper return of the Warrant.

It was Moved, and *voted*: To adjourn the meeting to December 8, 1970 at 7:30 P.M. in the Walpole High School Auditorium, if necessary.

At the suggestion of Selectman Holman, a moment of silence was observed for Frank L. Davis.

It was Moved, and *voted*: To dispense with the reading of the Warrant.

The Moderator appointed John Hill as assistant Moderator to handle the proceedings in the Cafeteria for the overflow.

The following Tellers were appointed in the Auditorium: Mrs. Nan Flanagan, Mrs. Rennie Grasso, Mr. Richard Murphy and Mr. William Wakefield. The Tellers

appointed in the Cafeteria were: Mr. Barry Arnold, Mr. Carl W. Friedholm, Mr. Robert A. Pinkham and Mr. Paul J. Rusconi.

ARTICLE 1—It was Moved, and *voted*: That the Town adopt the following By-Law: No person shall have more than one unregistered car or truck ungaged on premises owned by him or under his control unless authorized by the Building Inspector, except farm vehicles used exclusively upon a farm. Under no circumstances will an unregistered and unsightly car or truck be permitted to be stored in a front yard. Penalty for a breach thereof shall be in an amount not in excess of twenty dollars and no cents (\$20.00) and each day during any portion of which violation is permitted to exist shall constitute a separate offense. This section shall not apply to premises licensed under Chapter 140 of the General Laws.

ARTICLE 2—It was Moved, and *voted*: That the Town transfer from the Excess and Deficiency Fund the amount of Twenty Thousand and Eight Hundred Dollars (\$20,800) to purchase a certain parcel of land situated in the most southerly section of Walpole, between Washington Street and Boston-Providence Turnpike and more particularly bounded and described as follows:

Beginning at the most southerly corner of said parcel at a point which is approximately three hundred thirty-seven feet (337') more or less northwest of Boston-Providence Turnpike.

Thence running along the following courses:

N 09°-23'-19" W	205.15'
N 62°-47'-41" E	149.22'
N 84°-00'-07" E	90.87'
N 04°-34'-36" E	260.98'
S 83°-40'-53" E	107.79'
N 06°-19'-37" E	236.89'
S 48°-38'-34" E	508.63'
S 59°-28'-26" W	842.19'

to the point of beginning. Said parcel containing 4.77 acres and shown on a plan entitled "Plan of Land in Walpole, Massachusetts, John P. Mogan, Town Engineer, dated April 27, 1970."

Vote: Yes—1065; No—14.

ARTICLE 3—It was Moved, and *voted*: That the Town accept as a gift from the Walpole Housing Authority the following described parcel of land consisting of three (3) lots on Winthrop Street in Walpole:

A certain parcel of land situated in Walpole, shown as Lots 12, 13 and 14 on a plan entitled "Robinwood Plan of Land in Walpole, Massachusetts. Philcot Corporation, Consultants", filed as No. 850 of 1953 in Plan Book 178, bounded and described as follows:

Beginning at the southwesterly corner of said premises on the northerly side of Winthrop Street, thence running by the following courses:

N 47°-10'-05" W	225.91'
N 71°-09'-40" E	159.43'
N 42°-45'-01" E	181.22'
S 47°-14'-59" E	150.00'
S 42°-45'-01" W	321.86'

containing according to said plan 53,593.84 square feet.

Vote: *Unanimous*.

ARTICLE 4—On Substitute Motion of William Baird, It was Moved and Seconded: That Twenty-three Thousand Dollars (\$23,000) be appropriated from the Excess and Deficiency Fund to begin construction of a playground as described in Article 4 of the Special Town Meeting. Motion was: *Defeated*.

It was Moved, and *voted*: That *No Action* be taken on Article 4 to see if the Town will vote to raise and appropriate, transfer or borrow a sum of money to construct and equip a playground in West Walpole off Lincoln Road or do or act anything in relation thereto.

ARTICLE 5—It was Moved, and *voted*: To dispense with the reading of the descriptions of Articles 5, 6 and 7.

It was Moved, and *voted*: That the Town accept Eldor Drive from its beginning at Station 0 + 0 at Summer Street to the end at Winter Street at Station 37 + 74.06 as shown on a plan entitled "Street Acceptance Plan of Eldor Drive in Walpole, Mass." drawn by Walpole Engineering Department, John P. Mogan, Town Engineer, dated March 23, 1970, bounded and described as follows:

A certain way known as Eldor Drive beginning at a point on the northerly side of Summer Street S 33°-29'-50" W one hundred forty-two and five hundredths (142.05) feet distance from a stone bound, thence forty-five and no hundredths (45.00) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence N 52°-26'-30" W nine hundred one and sixty-one hundredths (901.61) feet to a point, thence N 55°-16' W one thousand one hundred and eighty-three and thirteen hundredths (1183.13) feet to a point, thence two hundred thirty-five and sixty-two hundredths (235.62) feet on a curve with a radius of one hundred fifty and no hundredths (150.00) feet to a point, thence S 34°-44' W forty-five and forty-nine hundredths (45.49) feet to a point, thence one hundred thirty-six and thirty-three hundredths (136.33) feet on a curve with a radius of two hundred eighty and no hundredths (280.00) feet to a point, thence S 6°-50'-11" W thirty-two and sixty-four hundredths (32.64) feet to a point, thence one hundred sixty-four and fifty seven hundredths (164.57) feet on a curve with a radius of four hundred forty and no hundredths (440.00) feet to a point, thence S 28°-16' W two hundred sixty-two and forty-eight hundredths (262.48) feet to a point, thence one hundred forty-seven and eighty-six hundredths (147.86) feet on a curve with a radius of four hundred eighty and no hundredths (480.00) feet to a point, thence S 10°-37' W two hundred and fifty-two hundredths (250.52) feet to a point, thence one hundred twenty-nine and seventy hundredths (129.70) feet on a curve with a radius of four hundred forty and no hundredths (440.00) feet to a point, thence S 27°-30'-20" W one hundred sixty-two and sixty-five hundredths (162.65) feet to a point, thence forty-seven and twelve hundredths (47.12) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence N 62°-29'-40" W one hundred and no hundredths (100.00) feet to a point, thence forty-seven and twelve hundredths (47.12) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence N 27°-30'-20" E one hundred sixty-two and sixty-five hundredths (162.65) feet to a point, thence one hundred seventeen and ninety-one hundredths (117.91) feet on a curve with a radius of four hundred and no hundredths (400.00) feet to a point, thence N 10°-37' E two hundred eighty and fifty-two hundredths (280.52) feet to a point thence one hundred sixty and nineteen hundredths (160.19) feet on a curve with a radius of five hundred and twenty and no hundredths (520.00) feet to a point, thence N 28°-16' E two hundred sixty-two and forty-eight hundredths (262.48) feet to a point, thence one hundred forty-nine and sixty-one hundredths (149.61) feet on a curve with a radius of four hundred and no hundredths feet to a point, thence N 6°-50'-11" E thirty-two and sixty-four hundredths (32.64) feet to a point, thence one hundred fifty-five and eighty-one hundredths (155.81) feet on a curve with a radius of three hundred twenty and no hundredths (320.00) feet to a point, thence N 34°-44' E forty-five and forty-nine hundredths (45.49) feet to a point, thence two hundred ninety-eight and forty-five hundredths (298.45) feet on a curve with a radius of one hundred ninety and no hundredths (190.00) feet to a point, thence S 55°-16' E one thousand one hundred eighty-four and twelve hundredths (1184.12) feet to a point, thence S 52°-26'-30" E nine hundred one and eighty-four hundredths (901.84) feet to a point, thence forty-five and thirty-one hundredths (45.31) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence S 41°-00'-50" W forty-six and thirty-seven hundredths (46.37) feet to a point, thence S 33°-29'-50" W forty-nine and ninety-one hundredths (49.91) feet to the point of beginning. *Vote: Unanimous.*

ARTICLE 6—It was moved, and *voted*: That the Town accept Jefferson Drive from its beginning at Station 0 + 20 at Eldor Drive to the end at Station 3 + 70 as shown on a plan entitled "Street Acceptance Plan of Jefferson Drive in Walpole, Massachusetts," drawn by Walpole Engineering Department, John P.

Mogan, Town Engineer, dated March 19, 1970 and bounded and described as follows:

A certain way known as Jefferson Drive beginning at a point on the southerly side of Eldor Drive N 52°-26'-30" W two hundred fifty and twelve hundredths (250.12) feet distance from a stone bound, thence forty-seven and twelve hundredths (47.12) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point thence S 37°-33'-30" W thirty-eight and sixteen hundredths (38.16) feet to a point, thence sixty-seven and nine hundredths (67.09) feet on a curve with a radius of one hundred and no hundredths (100.00) feet to a point, thence S 76°-00' W ninety-seven and twenty-six hundredths (97.26) feet to a point, thence twenty-five and twenty-three hundredths (25.23) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence two hundred seventeen and seven hundredths (217.07) feet on a curve with a radius of forty-five and no hundredths (45.00) feet to a point, thence twenty-five and twenty-three hundredths (25.23) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence N 76°-00' E ninety-seven and twenty-six hundredths (97.26) feet to a point, thence ninety-three and ninety-three hundredths (93.93) feet on a curve with a radius of one hundred forty and no hundredths (140.00) feet to a point, thence N 37°-33'-30" E thirty-eight and sixteen hundredths (38.16) feet to a point, thence forty-seven and twelve hundredths (47.12) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence N 52°-26'-30" W one hundred and no hundredths (100.00) feet to the point of beginning. Vote: *Unanimous*.

ARTICLE 7—It was Moved, and *voted*: That the Town accept Jackson Drive from its beginning at Station 0 + 12.03 at Jefferson Drive to the end at Station 3 + 45.01 as shown on a plan entitled "Street Acceptance Plan of Jackson Drive in Walpole, Mass.", drawn by Walpole Engineering Department, John P. Mogan, Town Engineer, dated March 18, 1970 and bounded and described as follows:

A certain way known as Jackson Drive beginning at a point on the southerly side of Jefferson Drive S 76°-00' W seventy-one and seventy-nine hundredths (71.79) feet distance from a stone bound, thence eighty-five and twenty-two hundredths (85.22) feet on a curve with a radius of sixty-two and no hundredths (62.00) feet to a point, thence S 25°-14'-30" E one hundred seventy-six and seventy-nine hundredths (176.79) feet to a point, thence twenty-five and twenty-three hundredths (25.23) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence two hundred seventeen and seven hundredths (217.07) feet on a curve with a radius of forty-five and no hundredths (45.00) feet to a point, thence twenty-five and twenty-three hundredths (25.23) feet on a curve with a radius of thirty and no hundredths (30.00) feet to a point, thence N 25°-14'-30" W one hundred ninety-four and five hundredths (194.05) feet to a point, thence sixty-seven and ninety-five hundredths (67.95) feet on a curve with a radius of sixty-two and no hundredths (62.00) feet to a point, thence S 37°-33'-30" W eight and eighteen hundredths (8.18) feet to a point, thence ninety-three and ninety-three hundredths (93.93) feet on a curve with a radius of one hundred forty and no hundredths (140.00) feet to a point, thence S 76°-00' W twenty-five and forty-seven hundredths (25.47) feet to the point of beginning. Vote: *Unanimous*.

ARTICLE 8—It was Moved, and *voted*: That the Town appropriate by transfer from the Excess and Deficiency Account the amount of Five Hundred Dollars (\$500.00) for the Police Lieutenant in the Walpole Police Department for a stipend in addition to the salary of his rank.

ARTICLE 9—It was Moved, and *voted*: That the Town raise and appropriate the sum of Forty-One Thousand Nine Hundred Eighty-Three Dollars and Fifty-Nine Cents (\$41,983.59) for the construction of Town streets and that said sum be raised under Chapter 679, Section 5 of the Acts of 1965. Said funds either received or to be received.

ARTICLE 10—It was Moved, and *voted*: That *No Action* be taken on this Article to raise and appropriate or transfer a sum of money to purchase a tract of

land in the Mine Brook Area shown on Assessors' Map E-1 as Lot E 161-B containing seven (7) acres more or less for water purposes.

It was Moved, and *voted*: To adjourn this Special Town Meeting to December 8, 1970 at 7:30 P.M. The Moderator so declared at 10:48 P.M.

ADJOURNED SPECIAL TOWN MEETING

December 8, 1970

Pursuant to the foregoing adjournment, the Special Town Meeting was called to order at 7:30 P.M. by Moderator Richard K. Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

John E. Hill was appointed Assistant Moderator for the overflow crowd in the Cafeteria. The following Tellers were appointed: Richard Krappe, Betsy Krappe, Wallace Duncan and Frances Duncan.

ARTICLE II—It was Moved and Seconded: That the Town raise and appropriate or borrow a sum of money for plans and specifications for a new four-year high school and to authorize the Moderator to appoint a committee of seven, consisting of members of the School Committee and representatives of the Appropriation Committee, Permanent Building Committee, and citizens of the town to procure plans and specifications for a new four-year high school with said money or do or act anything in relation thereto.

It was Moved and Seconded: To adjourn this Special Town Meeting to December 9, 1970 at 7:30 P.M. Motion was: *Defeated*.

It was Moved, and *voted*: To adjourn this Special Town Meeting to December 14, 1970 at 7:30 P.M. The Moderator so declared at 11:05 P.M.

ADJOURNED SPECIAL TOWN MEETING

December 14, 1970

Pursuant to the foregoing adjournment, the Special Town Meeting was called to order at 7:35 P.M. by Moderator Richard K. Troxell in the Auditorium of the Walpole High School. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present.

John E. Hill was appointed Assistant Moderator for the overflow crowd in the Cafeteria. The following Tellers were appointed: JoAnn Sprague, Daniel Moriarty, Philip Taylor and Wallace Duncan, in the Auditorium; Warren Patterson, John Farrell and William Baird in the Cafeteria.

Mr. James P. Driscoll, Chairman of the Walpole School Committee addressed the assembly as follows:

Mr. Moderator, Fellow Townspeople: We of the School Committee are united and confident of our judgment in recommending the following to the people of Walpole: The building of a new four-year truly comprehensive high school, the use of the present high school as a middle school, the renovation of certain spaces at the Bird School, and the ultimate conversion of the Plimpton School for administrative offices. We further recommend the adoption of a K-4, 5-8, 9-12 organizational structure.

In support of that cause of action we cite the Engelhardt Report, the Master Planner for the Town of Walpole, the School Building Assistance Commission, the Vocational Education Department of the State of Massachusetts, the former United States Commissioner for School Facilities, the former Massachusetts Commissioner for School Facilities, various architects and engineers, many others, and most of all, our own hearts and conscience.

We believe that this course of action not only resolves our immediate problems of providing for kindergarten children and increased high school enrollments, but also that it unlocks the whole key to the future.

For the first time, our community has the opportunity to provide for *all* of its children and to receive *direct* federal aid for that purpose. As we advised you on Monday last, we have a commitment in writing for the following: An additional 10 percent of construction costs for one-third of the High School; full teachers' salaries for two years for this program, and beyond those two years a full 50% of net operating costs year after year after year. Over the next twenty years this can and will represent literally millions of dollars and a consequent reduction in your tax rate and ours. Most important of all, it would enable us to offer programs, curricula and hope—to that great middle group of children who do not go on to advanced education. Ours is the only plan which opens this particular door.

In the course of our work and study, we have gone far beyond what might normally be expected.

Our community is assured, for example, of full forty percent funding of construction by the State.

Our community can also be assured as to the compliance of our program with the Public Health and Safety Codes.

Our community can be assured as to the flexibility of facilities which this program allows, giving us options as to space utilization and organizational structure which cannot be achieved under a program of multiple additions.

Our community can be assured of our ability to revise and broaden curriculum for the great middle group of children who deserve more than restricted facilities and curriculum would otherwise offer them.

Our community can be assured of the numbers and the capacities we have provided you, school by school and systemwide.

Last, but most important of all, our community can be assured that, with the new element of federal aid, the School Committee proposal is by far the less expensive route to follow and we do flatly state this.

Ours is not a program of ifs, maybes, and perhaphes. Ours is a positive and dynamic proposal which broadens the horizons for your children and your children's children—not tied to the past or "locked-in" for another generation to the old curriculum and the old ways.

Nor will we sit back, complacent with what we have already accomplished in terms of state and federal aid. There are, after all, private foundations which make grants to imaginative and progressive school systems in support of innovations. We shall at least and at once go after them.

Generations before us, often with greater sacrifice than we are called upon to make, have contributed to the building of this fine school system. Now, our moment of truth has arrived.

We of the School Committee happen to feel with a certain community pride that the people of Walpole are not going to be deluded, as others have been, into makeshift solutions or costly delays. Therefore we invite you to join with us and with the new Building Committee in planning an imaginative community curriculum and the facility to house it.

This is an historic and last Open Town Meeting. Let us leave here tonight not only as a united community, but as a people on fire with a dream whose realization can be seen and touched and savored by us all, but whose main beneficiaries will be our children and our children's children.

ARTICLE 11—That the Town raise and appropriate by transfer from the Excess and Deficiency Account the sum of \$50,000 for plans and specifications for a new four-year high school and to authorize the Moderator to appoint a commit-

tee of seven, consisting of members of the School Committee and representatives of the Appropriation Committee, Permanent Building Committee and citizens of the Town to procure plans and specifications for a new four-year high school with said money. Motion was: *Defeated*: Yes—243; No—521.

On Substitute Motion offered by Frank P. Hilts and Donald B. Youngdahl, It was Moved and Seconded: That the sum of \$36,000 be substituted for the sum of \$50,000.

It was Moved, and *voted*: To close debate on the Substitute Motion. Substitute Motion was then: *Defeated*.

ARTICLE 12—It was Moved and Seconded: That the Town appropriate by transfer from the Excess and Deficiency Account the sum of \$50,000 to secure the services of an architect for preliminary plans and specifications; and appoint a Walpole School Buildings Committee of seven, including one representative from each of the School Committee, the Appropriation Committee and the Permanent Advisory Building Committee to implement the recommendations of the Future School Needs Committee with said money, and that the Moderator appoint said School Buildings Committee. Motion was: *Defeated*. Yes—304; No—443.

On Substitute Motion, It was Moved, and *voted*: That the Moderator appoint from the School Committee, the Appropriation Committee and the Permanent a Walpole School Buildings Committee of seven including one representative each Advisory Building Committee.

It was Moved, and *voted*: To extend a vote of confidence to the Walpole School Committee and the Walpole School Needs Committee.

ARTICLE 13—On Motion of the Appropriation Committee, It was Moved, and *voted*: That the Town authorize the Town Moderator to appoint a committee of three (3) persons to study the feasibility for the Town of Walpole to join the Bristol-Norfolk Vocational Technical High School Planning Board and to report its findings and make recommendations to the next Annual Town Meeting.

ARTICLE 14—It was Moved and Seconded: That the Town vote to place under the management and control of the Conservation Commission a certain parcel of land presently owned by the Town and shown as Lot No. 1345 on Sheet D-14 of the Assessors' Map and consisting of approximately 51.1 acres, near the location of the Walpole High School, or take any other action relative thereto.

On Substitute Motion offered by the Conservation Commission, It was Moved and Seconded: That the Town vote to place under the management and control of the Conservation Commission, as provided by Chapter 40, Section 8C of the General Laws, a certain parcel of land presently owned by the Town and shown as Lot No. 1345 on Sheet D-14 of the Assessors' Map and consisting of approximately 51.1 acres recorded in the Norfolk Registry of Deeds, Book 1347, Page 167 near the location of the Walpole High School, but reserve to the Town of Walpole the right to use the above described premises for water supply purposes.

It was Moved, and *voted*: To close debate on the Substitute Motion. Substitute Motion was then: *Defeated*.

It was Moved, and *voted*: To close debate on the Main Motion. Main Motion was then: *Defeated*.

There being no further business to come before this Special Town Meeting, it was Moved, and *voted* that this meeting be dissolved. The Moderator so declared at 10:55 P.M.

Jury List

Name, Address, Business or Occupation, and Address of Employer

- ANDERSON, Richard W., 18 Beth Rd., Surveyor-Computor, New England Survey Service, Inc., 566 Atlantic Ave., Boston.

WRAGG, Louise B. (Mrs.), 16 Woodland Rd., Housewife; Husband—Salesman, Strouse Adler Co., Olive St., New Haven, Conn.

School Consultants Report

This summary report has been prepared by the consultants. It contains the most important elements and recommendations of the study, School Building Needs, that was submitted to the School Committee of the Walpole public schools in April, 1969.—Engelhardt, Engelhardt and Leggett, Inc., Educational Consultants, Purdy Station, New York.

ENROLLMENTS AND ENROLLMENT PROJECTIONS

Estimates of resident enrollments in the Walpole Public Schools are shown in the following table. Enrollments are expected to increase in grades 1-12 through 1971-72, then to level off in 1972-73 and decrease slightly. Elementary enrollments, grades 1-4, should remain fairly stable through 1971-72, then decrease slightly, since the birth figures for Walpole indicate that there will be fewer children than now entering first grade in 1972 and subsequent years. Middle grade enrollments, grades 5-8, show some decline from 1970, as an increasing percentage of resident pupils attend the local parochial school and also as a result of the drop in the number of births. Enrollments in grades 9-12 continue to climb through 1973-74, when they level off at 1700.

The addition of kindergartens to the school program will mean, of course, increased enrollments in the elementary schools.

ESTIMATES OF ENROLLMENTS BY GRADE GROUPINGS—1969-70 THROUGH 1978-79

Year	1-4	1-5	1-6	5-8	6-8	7-9	10-12	9-12	1-12	Sp.	1-12 & Sp.	K	K-4	K-5	K-6	K-12 & Sp.
1968-1969	1563	1998	2446	1729	1294	1227	892	1273	4565	48	4613					
1969-1970	1558	1959	2402	1734	1333	1279	1002	1391	4683	47	4730	466	2024	2425	2868	5196
1970-1971	1579	1957	2366	1672	1294	1324	1066	1505	4756	48	4804	471	2050	2428	2837	5275
1971-1972	1596	1981	2366	1618	1233	1284	1160	1596	4810	48	4858	427	2023	2408	2793	5285
1972-1973	1566	1956	2348	1573	1183	1224	1213	1464	4785	48	4833	401	1967	2357	2749	5234
1973-1974	1508	1905	2303	1569	1172	1224	1254	1704	4781	48	4829	371	1879	2276	2674	5200
1974-1975	1427	1819	2224	1582	1190	1210	1265	1690	4699	47	4746					
1975-1976				1595	1197	1229	1253	1685								
1976-1977				1568	1207	1238	1250	1687								
1977-1978				1508	1169	1247	1239	1685								
1978-1979				1429	1116	1212	1260	1701								

Enrollments for 1968-69 are actual. Postgraduate and Roxbury pupils are subtracted for projection purposes.

EXISTING SCHOOL FACILITIES

In 1968-69 there are operating in Walpole eight elementary school buildings, two junior high schools, and one senior high school. The following table lists the schools, gives the years the original building and any major additions were constructed, the size of the school sites, and the grades housed in each building in 1968-69.

School Building Statistics — 1968-69

School	Year Built	Year of Addition	Acreage of Site*	Grades Housed
<i>Elementary</i>				
Bird	1920		8.7	1-6
Boyden	1930	1963	8.5	1-6, Sp.
Fisher	1955		20.0	2-5
Old Fisher	1913		2.4	1-2
Old Post Road	1964		25.0	1-6
Plimpton	1914		5.3	1-5

Stone	1950	4.4	1.4
Old Stone	1890		5-6, Sp.
<i>Junior High</i>			
East	1961	21.1	6-9, Sp.
West	1967	52.4	5.9
<i>Senior High</i>	1908	14.0	10-12, Sp.

GENERAL COMMENTS ON THE SCHOOLS

Following are some point applicable to many of the schools in the community.

1. Six of the eight elementary schools have sites below minimum standards in size. Besides space for the building itself, space is needed for parking and for outdoor physical activities and also for possible future expansion of a building. When an ample site is provided, it is possible to separate the younger from the older pupils. The limitations in space are particularly confining for upper elementary children, for it is at this age that their interest in games which require larger play areas is developing. The physical development of the child, along with his intellectual development, should be a major concern of the school program.

The Council of School Facility Planners has recently revised its recommendations for site sizes:

For elementary schools—10 acres plus one acre for each 100 pupils

For junior high schools—20 acres plus one acre for each 100 pupils

For senior high schools—30 acres plus one acre for each 100 pupils.

Using the same standards, the site of the East Junior High School lacks some six acres to meet the minimum standard, and the Senior High School is critically short by some 26 acres.

It is suggested that wherever possible, extensions be made to school sites; in selecting future sites, the above figures should set a standard for the town. It is especially important in a growing area, when the ultimate size of a school cannot be forecast, that ample sites be secured.

2. In the non-fire-resistive buildings, fire detection systems should be installed—at Bird, the original Boyden, and the Senior High (and, if not closed, at Old Fisher). Old Stone already has a sprinkler system.
3. No facilities for art, music or science have been provided in the elementary schools. Upper elementary pupils in particular are ready to move out of the self-contained classroom into well equipped special areas where they can be given a more intensive program in special subjects by specially trained teachers.
4. Gymnasium facilities are lacking at Bird, Boyden, Old Fisher, Plimpton, and Stone Schools. These facilities are needed at all grade levels.
5. Little provision exists for teachers' workrooms. Adequate workrooms for the professional staff are becoming an increasingly important adjunct of the modern educational program. Many school systems are beginning to develop the use of teacher aides; they can frequently be of as much value in preparing material in the workroom as in the regular classroom.
6. Pupils in special education classes are housed in unsatisfactory spaces. These rooms require more space than is usually provided in a regular classroom, and some simple materials of a crafts nature should be available. For example, it is desirable to have a large free area which can be used for class work or other projects, small cooking area, ceramics bench, shop area, and a growing area, in addition to the customary toilet facilities, wardrobe, chalk-board and tackboard, bookshelves, and storage.

7. Little or no provision has been made for special teachers in individual or small group work, such as the speech therapist, remedial reading teacher, psychologist, or music instructor.
8. Health rooms are inadequate in Bird, Old Fisher, Plimpton, and in the Senior High School.
9. Of prime importance to a modern educational program throughout a pupil's school years is the library. The libraries at Bird and Stone are very minimal facilities. Fisher has no library, but what is better called a small bookroom. Plimpton has several book carts. Boyden and Old Post Road have better facilities, as do the two junior high schools. Those of the Senior High School are in need of great improvement.
10. Classrooms are too small to accommodate class sizes of 25 in Bird, Old Fisher, and Plimpton, especially for an educational program of quality. Elementary school children need space for activities within their rooms. Class sizes should be kept to 20 in these schools.
11. In general, all the buildings lack flexibility. Spaces are standard in size. In order to meet educational needs, there should be both large and small spaces.
12. There are very few rooms in the school district designed and large enough for kindergarten programs, which are mandated by September 1973. Fisher has one room; Old Post, one; and Stone, one. At least 10 rooms in all will be needed for half-day sessions. One of the prime needs of the community is to build kindergarten spaces.

ANALYSIS AND RECOMMENDATIONS

Any solutions to Walpole's school building needs must be considered within the context of a number of factors. Among those factors considered by the consultants are the following:

1. The community and population growth.
2. Enrollment growth.
3. Educational needs and trends as related to school facilities.
4. The physical and educational adequacy of the existing schools and the need to improve these facilities.
5. Organization of the schools.

Enrollment Exceeds Capacity

The following table shows the capacities of the existing buildings. Capacity of the elementary schools has been calculated at 25 per classroom, except in the case of Bird, Old Fisher, and Plimpton Schools, where small classroom sizes should limit the class size to 20. Capacities of the junior and senior high schools were calculated at 80 per cent utilization, since it is not possible to schedule every teaching station to its capacity every period of the day.

At present, elementary facilities have a capacity of 2050. The enrollment, as of October, 1968, was 2159. Thus, the elementary facilities are already over capacity, this despite the fact that several units of grades 5 and 6 are housed in the junior high schools. The enrollment for grades 1-6 is 2446, far in excess of the elementary capacity. At the junior high schools, enrollments also exceed capacity because of the fifth and sixth grades assigned to them. In 1969-70, next year, the senior high school will be at capacity and the following year over capacity. Total enrollment of 4636 currently exceeds total capacity of 4339 by a figure of 297, or by some 7 per cent.

Already overcrowded facilities will become more so next year and succeeding years as enrollments increase. Further adding to the enrollment pressures and housing needs is the mandatory institution of public kindergartens by 1973. By 1973-74 an estimated enrollment, in K-12, of 5200 is expected.

Present Capacities of the Schools

Elementary

School	No. of Classrooms	Capacity*	Enrollment** Oct., 1968
Bird	16 at 20	320	378
Boyden	12 at 25	300	287
Fisher	11 at 25	275	309
Old Fisher	4 at 20	80	94
Old Post Road	12 at 25	300	317
Plimpton	10 at 20	200	231
New Stone	15 at 25	375	367
Old Stone	8 at 25	200	176
Total Elementary	88	2050	2159
<i>Junior High</i>			
East		616	785
West		663	786
<i>Senior High</i>			
Totals		1010	906
		4339	4636

* Capacity is further reduced by limited enrollments in special classes.

** Includes pupils enrolled in special classes.

An addition on Fisher will alleviate to some extent the shortage of classrooms at the elementary level. It does not completely solve the problem, however, since several of the elementary buildings should be closed as soon as possible—Bird, Old Fisher, Plimpton, and Old Stone. While the Fisher addition will provide 375 new classroom seats, the closing of the other schools would subtract 800 seats.

Once it is determined that more space is necessary, the next two questions are posed:

1. What kinds of spaces are needed?
2. How many spaces are needed?

Alternatives: In studying the educational needs and facility needs of Walpole, the consultants considered a number of alternatives in regard to the community's single senior high school.

- A. Construct an addition on the existing three-year high school to raise its capacity from 1010 to 1300.
- B. Construct a new three-year 1300-pupil high school.
- C. Convert and expand one of the junior high schools into a four-year high school.
- D. Convert and expand one of the junior high schools into a three-year senior high school.
- E. Construct a new four-year, 1700-pupil high school.
- A. *Add to Existing High School:* The first alternative is the construction of an addition on the existing three-year high school. This addition must raise capacity from 1010 to 1300, the estimated maximum enrollment in the next 10 years. For several reasons, the consultants advise against this alternative:
 1. The site is now about 14 acres. This includes the land occupied by the structure. This is far too small for a 1300-pupil high school. A minimum site of 43 acres is required in order to provide adequate parking and athletic fields. Any addition to the school should anticipate the acquisition of at least another 30 acres of land. This probably means the acquisition of 30 acres of Town Forest. The possibility of acquiring this much Town Forest land is extremely doubtful.
 2. The high school is already a rambling structure with space illogically laid out. Any addition would require not only expansion of spaces to meet the growing enrollment but relocation of spaces that cannot be enlarged in their present location—the home arts facilities, the administration, guidance and health suites, the science facilities, as examples.

3. The first two sections of the school are non-fire-resistive structures. It would be unwise to add a fire-resistive structure onto them.
 4. What happens if this school needs expansion again? More land would be needed, and the wisdom of another addition would be posed again.
 5. The cost is not small and is estimated at \$3,186,000. This includes cost of the addition plus renovation and conversion in the existing school plant. Add to this the cost of \$3,200,000 to expand elementary school facilities—for a total cost of \$6,386,000.
- B. Build a New High School—1300 Students, Grades 10-12: Another alternative is the construction of a new three-year 1300-pupil high school. This would mean the assignment of grades 7-9 to the two existing junior high schools and the assignment of grades 5 and 6 to the existing high school plant. If the goal were merely to house pupils this might be the answer. Cost is estimated at \$7,904,000 for the new three-year senior high school plus \$600,000 for conversion and renovation of the existing high school building. However, in terms of educational values, the consultants reject this alternative. The existing high school is not a desirable facility for just grades 5 and 6. A two-year school for grades 5 and 6 is undesirable in that the teachers have too little time in which to become acquainted with a pupil. In addition, the consultants are of the opinion that a four-year high school is superior to the three-year high school.
- C. Convert Junior High School to Four-Year High School and Expand: Consideration was given to expanding one of the junior high schools to a four-year high school. Because of its much larger site, the West Junior High School would be the better of the two to expand, if expansion were desirable. Expansion would be extensive, of course, since the capacity of the school is 668 at 80 per cent utilization. The school would need to expand to accommodate 1700 pupils. Not only would spaces have to be added, but present spaces would have to be relocated. The science suite would need to be relocated and developed into the more elaborate facilities needed by senior high school students. Industrial arts would need expansion. So, too, the library. Relocation and conversion of space would add to the cost. Also, it is typically more costly per square foot to construct an addition than to build a new structure. In any event, the expansion of the West Junior High School into a four-year high school should cost approximately \$6,750,000. This expenditure is less than the \$10.3 million estimated for a completely new four-year high school. However, cost should not be the only determining factor. Such a large-scale conversion would likely result in some unsatisfactory layout of spaces. For instance, physical education facilities would be separated. Also, the problem of future expansion must be considered. Undoubtedly, it would be much more difficult to expand a plant already expanded than to expand a new high school specifically planned for expansion. There must be added to the cost of \$6,750,000, for the expansion of the West Junior High School, the cost of renovating and converting the existing high school for grades 6-8—\$1,186,000—and the cost of building elementary school facilities — \$1,814,000. Total cost is \$9,760,000.
- D. *Convert Junior High School to a Three-Year High School and Expand:* Another alternative is to retain the 6-3-3 organization. This could mean the expansion of West Junior High School into a three-year, 1300-pupil senior high school and the utilization of the East Junior High School and the present senior high as junior high schools, and immediate construction of space (as additions or new schools) for 700 elementary pupils,* at an approximate cost of \$3,200,000. The alternative would cost in the neighborhood of \$8,386,000 including the necessary renovation and conversion costs involved in the conversion of

the West Junior High School to a senior high school and of the present high school to a junior high facility.
 (* These elementary school space needs are calculated on the assumption that Old Fisher, Old Stone, and Plimpton are closed.)

- E. *Construct a New Four-Year, 1700-Pupil High School:* Finally, the consultants considered and are recommending this alternative—the construction of a new four-year, 1700-pupil high school. A new high school for grades 9-12 will allow the present junior high schools and the present high school facility to serve as middle schools, for grades 5-8, and the elementary schools to serve as primary units housing K-4.
 There are many advantages to this alternative:

1. First, it is in line with the kind of school organization that best meets the needs of Walpole's pupils and the educational program—K-4, 5-8, 9-12 organization.

At present Walpole subscribes to a 6-3-3 organization. In actuality, however, it is not a true 6-3-3 organization. Because of enrollment pressures and spaces available, West Junior High School houses several units of grades 5 and 6 as well as grades 7, 8, and 9. East Junior High School houses several units of grade 6 in addition to grades 7-9.

With a number of fifth and sixth grades already assigned to the junior high school buildings it would make good educational sense to adopt a middle school organization (grades 5-8), and begin to develop middle school programs. At present, the fifth and sixth grades are viewed as guests at the two junior high schools, only there until spaces are created at the elementary level.

2. Secondly, this alternative makes good use of existing facilities.

- a. The present junior high school can well be adapted to middle schools for grades 5-8.

- b. The present senior high school can be adapted for middle grade use also, with the conversion and renovation of some spaces. No matter what grades are housed in this building, conversion and major renovation will be necessary. Used as a middle school, in conjunction with two other schools, the distinct advantage offered is that no addition will be necessary. Capacities of the proposed middle school buildings are as follows:

Present High School (as Middle School)	650	(24x25)
East Junior High School (as Middle School) ...	525	(21x25)
West Junior High School (as Middle School) ...	550	(22x25)
Total	1725	

Capacity is calculated simply by multiplying the number of homerooms times the number of pupils (25) in each homeroom. In the case of the present high school structure it is assumed that a number of spaces will be converted to needed special facilities—expanded home arts, student resource centers, teacher-preparation areas. For all three buildings two spaces in each have been reserved for small group and special instruction.

The present high school can much more readily be altered to serve the needs of middle school youth. These younger students require fewer special spaces. Physical education spaces need not be so extensive. There is no need for a varsity football field, for instance. Science facilities and industrial arts need to be less extensive. The present industrial arts facilities can be renovated to serve the needs of middle school pupils. For high school pupils they need to be extensively expanded as well.

Capacity of the three proposed middle schools somewhat exceeds middle grade enrollments, as projected through 1978. However, this is desirable for two reasons. Space will be available for growth. Although middle grade enrollments are now decreasing, it is expected that they will take an upturn as a result of an expected increase in the number of births per year, beginning in 1969, and as a result of possible increasing migration into the community.

Another advantage of capacities exceeding enrollments for the first years is that it will be possible to close off some spaces in the present high school while renovation and conversion are going on without harming the educational program. Cost of this alternative is estimated at \$11,522,000. This includes the cost of renovating and converting the existing high school for middle school use.

Comparison of Costs of Alternatives: A comparison of the costs of the five alternatives shows that this fifth alternative—the construction of a new four-year high school, etc.—is the most costly.

<i>Alternative</i>	<i>Cost</i>
A. Construct an addition on the existing 3-year high school	\$6,386,000
B. Construct a new 3-year, 1300-pupil high school	\$8,504,000
C. Convert and expand one of the junior high schools in a 4-year high school	\$9,760,000
D. Convert and expand one of the junior high schools in a 3-year senior high school	\$8,386,000
E. Construct a new 4-year, 1700-pupil high school	\$11,522,000

In the minds of the consultants, it is Alternative E which has the most to offer the community educationally speaking and in terms of long-range planning.

The Need to Improve Facilities: The previous section mentioned some improvements needed in the existing schools to make them physically and educationally adequate for the present and future needs of Walpole's children.

The utilization of the existing high school is a major consideration. The consultants have recommended against an addition to the present structure. The site is too small. The original structure and the first addition are of non-fire-resistant construction and would pose a hazard to any new fire-resistive addition. Educationally speaking, the building is inadequate for a modern high school program.

At the secondary level there is a great need for small group instruction spaces, for spaces for independent study, facilities for extensive use of multimedia, for expanded library facilities, for student resource center, for teacher-preparation-conference areas, spaces for large group instruction, spaces which will allow for team teaching. There is a great need for these spaces now; the need will grow as the years pass. The present high school has none or a minimum of the above spaces.

The building, because of its capacity and facilities, is not adequate for a high school. It can be made comparable to the two present junior high schools for a middle school. This will mean, of course, renovation and conversion of spaces within the existing structure. Also needed is the installation of fire and smoke detection devices in the structure.

Demolition of the 1908 and 1925 sections was considered as a possibility. However, these sections are structurally sound. With renovation they can be made serviceable facilities for a middle school. Exact cost will depend on exact specifications. However, an estimated figure of at least \$1,186,000 should be considered for this renovation and conversion for middle school use. Extensive wiring and plumbing and the installation of a fire and smoke detection or sprinkler system could increase this figure.

An alternative would be the demolition of the 1908 and 1925 sections and the construction of new facilities that would more ideally suit a middle school program. Facilities would also be of fire-resistive construction. Cost is estimated at \$1,850,000. This includes the cost of demolition and renovation and any conversion of the 1955 addition.

Equal Educational Opportunities: The question of equal educational opportunities is raised in regard to the elementary facilities of the community. Certainly, all of Walpole's elementary school children are entitled to attend equal educational facilities. It is one school district with one tax rate. Yet they are not all attending equal educational facilities. The facilities at Old Post Road are certainly superior to

those at Bird or Plimpton. The classrooms at Old Fisher are inferior to those at New Fisher. A prime objective should be the provision of good educational facilities for all the children of the district.

It is recommended that as soon as possible the following elementary schools be closed: Bird, Old Fisher, Plimpton, and Old Stone. These are all old buildings. Old Stone was built before the turn of the century. Bird was built in 1920, Old Fisher in 1913, and Plimpton in 1914. They range between 50 and 79 years in age and are in need of extensive renovation. Maintenance costs will increase. They are all of non-fire-resistive construction. Most important, they are inadequate educationally. They have no central facilities—no gymnasiums, unsatisfactory cafeterias, none or very inadequate libraries.

There are a number of reasons why these schools should not be considered for renovation or additions:

1. They are of non-fire-resistive construction.
2. Classroom spaces at Bird, Old Fisher, and Plimpton are too small for good educational programs, unless class size is restricted to 20 or less.
3. Spaces are inflexible. They consist of series of classroom spaces of basically identical size.
4. The sites are all inadequate.

The following table summarizes the capacities of the schools for 1972-73 assuming by then the construction of a new four-year high school, the utilization of the two present junior high schools and the present high school as middle schools (for grades 5-8), and the utilization of the following existing schools as K-4 units: Bird, Boyden, Fisher, Old Post Road, and New Stone.

It has been recommended that Bird be abandoned along with Old Fisher, Plimpton, and Old Stone. However, enrollment pressures make the closing of Bird impossible. Priorities would suggest the closing of the other three elementary schools first. Priority I is, of course, the construction of the four-year high school.

The figures in the table show the capacities to be adequate for projected enrollments. In 1972-73, for instance:

	Capacity	Enrollment
Elementary (K-4)	2045	1967
Middle Schools (5-8)	1725	1573
High School (9-12)	1700	1646
Totals	5470	5186*

* Enrollment in special classes raises this figure to 5234.

Elementary (K-4)

Projected Capacities of the Schools — 1972-73

School	No. of Classrooms	Capacity
Bird	14, 2 K	360
Boyden	10, 1 K, 1 Sp.	300
Fisher	20, 4 K, 2 Sp.	680
Old Fisher	Close	
Old Post Road	11, 1 K	315
Plimpton	Close	
New Stone	12, 2 K, 1 Sp.	390
Old Stone	Close	
Total Elementary	67, 10 K, 4 Sp.	2045*
<i>Middle Schools (5-8)</i>		
East		525
West		550
Central (present High School)		650
Total Middle		1725
<i>New Senior High School</i>		1700
Total		5470

* Capacity of elementary school is calculated at 25 per regular classroom, except for Bird which is calculated at 20; at 20 per kindergarten, half-day session; and at 10 per special class.

School Administrative Center: When the Plimpton School is closed for educational purposes, consideration should be given to use it as a school administrative center.

Space for the central administrative offices, now located in a small converted private frame dwelling, is already inadequate. It will become increasingly so as the school system grows in size.

The position of the superintendent of schools has been established to provide educational leadership for all the schools of the district. His primary function is to see that the curriculum and teaching process are adequate to meet the needs of all the students. He also has the responsibility of supervising supporting services and or preparing materials for board action. These latter functions must always be considered secondary, however, to the paramount assignment of providing the professional leadership for the school system.

To accomplish this leadership function, it is essential that his offices be adequate for conferences with principals, teacher committees, and staff specialists. They should contain a professional library covering all phases of education to which all members of the staff throughout the school system may refer. There should also be provision for a curriculum laboratory which would contain new books, film strips, tapes, motion pictures, samples of the latest developments in various types of audiovisual equipment, aids to reading, and the like, where teachers may try out, analyze, and arrive at decisions on their benefit to the school system.

In this same building, the School Committee should have an adequate meeting place with all of its materials close at hand. The business offices of the school system should be close by to provide the maximum degree of efficiency for supervision and coordination. Offices for the central staff and specialists should be nearby. If the school district is to receive maximum benefits from its administrative staff, it is necessary to provide this kind of coordination of space.

In the present administrative building office space is short. The secretarial staff is crowded into one space. The office of the director of guidance is too small for even a one-to-one conference. Storage space is lacking. There is no vault. Spaces for a professional library and curriculum laboratory are lacking. Parking space is very inadequate.

Several things recommend Plimpton for a school administrative center. It is centrally located and would have adequate parking space. In terms of spaces it is satisfactory. In layout of spaces it does leave much to be desired; however, space layout can be changed by permanent and/or temporary partitioning.

Priorities: Following are the major recommendations of the consultants. They are listed by priorities.

Priority I (immediate action for occupancy by September, 1972)

Build a new four year high school with a capacity of 1700 pupils. This facility should be planned with the possibility of a future addition in mind. It would be desirable to secure a site of 75 acres for a school of this size—keeping in mind its present capacity and possible future expansion. Obviously, the matter of location will be determined by availability of land.

Priority II (action in 1970, to be completed by September, 1974)

Convert and renovate existing high school for middle school use. Renovation and conversion can be begun in 1970 and done gradually, so as not to disturb the educational program within its walls.

Priority III (to be completed by September 1, 1972)

1. When the high school is completed, adopt a K-4, 5-8, 9-12 school organization.
2. Assign grades 9-12 to the new high school, grades 5-8 to the three middle schools (the present junior high schools and the present high school), K-4 to the following primary units: Bird, Boyden, Fisher, Old Post Road, and New Stone.

3. Close the Old Fisher, Plimpton, and Old Stone buildings; Old Stone to be demolished.
4. Expand Boyden site by 5 acres.

Priority IV (action in 1972, to be completed by September, 1973)
Convert and utilize Plimpton as a school administrative center.

Priority V (action in 1972, for occupancy in September, 1974)

1. Build a new 380-pupil elementary school to replace Bird. Location of the new facility will depend on population concentrations in 1972. A site of at least 14 acres is needed. Sites to be considered would be the present Bird site or a site in the west of the community, where the next population growth is expected. If built on the present site, this site should be enlarged by five acres.
2. Add needed special spaces at existing elementary schools:
 - a. Boyden School
 - 2 Kindergarten rooms
 - 1 Gymnasium (with storage space)
 - 1 Classroom for special education
 - 2 Rooms for small group instruction
 - b. Stone School
 - 1 Kindergarten room
 - 1 Gymnasium (with storage space)
 - 1 Classroom for special education
 - 1 Library (with workroom, storage, and conference spaces)
 - 2 Rooms for small group instruction

Estimated Costs: The precise cost of any building or addition to a building is never known until the building is completed and occupied and the last bill is paid. Probably the roughest estimate is the first estimate, before educational specifications have been developed or any plans drawn. A better estimate can be made when preliminary drawings are complete. A more sophisticated estimate can be made upon completion of the final working drawings.

The bids by contractors represent the moment of truth, for, regardless of what costs have been in the past or what they should be, the contractor's bid represents the situation as it is. Even then, change orders and adjustments or alternates refine the basic bid still further. Therefore, at this point costs are necessarily rough estimates only. Cost of new construction is estimated at \$38 per square foot (with additions at \$40 per square foot). This figure covers the cost of construction, site development, fees, equipment, administration, and contingency. Costs are based on expected market conditions within the next year in the Boston area.

Construction of the recommended facilities should be undertaken as soon as possible. Not only is the space needed for increasing enrollments and for an educational program of excellence, but also the sooner construction is begun the less will be the cost to the district.

Construction costs are rising steadily. They reflect the significant increases in construction wages, which have risen nearly 50 per cent in the last decade, from 1959 to 1968. If the trend continues, construction labor costs will double by 1975. Other building costs are also rising. It is likely that by 1975 the cost per square foot will have increased by 62 per cent over the cost in 1965.

Priority I:

Build a new 4-year high school for 1700 pupils at 160 square feet per pupil \$10,336,000*

Priority II:

Renovate and convert existing high school for middle school..... \$1,186,000

Priority III:

1. Adopt a K-4, 5-8, 9-12 school organization
2. Close Old Fisher, Plimpton, and Old Stone
3. Remove Old Stone \$10,000
4. Expand Boyden site by five acres

Priority IV:
Convert and utilize Plimpton as school administrative center \$80,000

Priority V:
1. Build new 380-pupil elementary school to replace Bird
at 120 square feet per pupil \$1,733,000*
2. Add needed special spaces at existing elementary schools:
a. At Boyden School—11,000 square feet \$440,000
b. At Stone School—12,000 square feet \$480,000
Total Cost Priority V \$2,653,000
* Cost of site acquisition not included.

School Building Needs Report

On March 14, 1967, at the annual Walpole Town Meeting, it was moved, seconded and voted: "That the town vote to appoint a committee to study future, system-wide school building needs, and to raise and appropriate the sum of Two Thousand Five Hundred Dollars (\$2,500) necessary for the outside survey; further that said Committee include one member each from the School Committee, the Board of Selectmen, and the Appropriations Committee".

Since June 20, 1967, the Committee has been studying the "future system-wide school building needs". In the course of this study the contributions of the people and organizations listed below were utilized, and this report gratefully acknowledges their help and advice.

- 1) Walpole School Committee
- 2) Walpole School System Staff
- 3) Walpole Town Officials and Committees
- 4) Walpole Planning Board
- 5) Mr. R. McCleary—Educational Consultant
- 6) Messrs. E. Kaitz and L. Ferguson—A. D. Little, Inc.
- 7) Englehardt, Englehardt & Leggett, Inc.
- 8) Mr. S. Hart—School Building Assistance Bureau, Massachusetts
- 9) Report of the Visiting Committee, New England Association of Colleges and Secondary Schools
- 10) Messrs. M. Nelson, B. Hunter and J. Pelkey—Chas. A. Maguire Association, Inc.
- 11) Project SPOKE

The study has included consideration of many varied and complicated factors and inputs. These were:

- 1) Walpole School Committee educational guidelines for the future.
- 2) Walpole School Committee educational specifications for the future.
- 3) Population and enrollment statistics.
- 4) Educational trends influencing facilities.
- 5) Adequacy of existing physical school plants.
- 6) Priorities and costs of building needs.

You Future School Needs Committee has consistently attempted to place the requirements of all students, from kindergarten through high school, foremost in all recommendations. It has sincerely and diligently studied the various data inputs for more clearly stated and consistent aspirations. In the background throughout was the fiscal requirements of the Town of Walpole. It sincerely hopes that its recommendations will be supported and carried out by the Town of Walpole. The Committee also hopes that the data and findings summarized in this report will stimulate following committees to provide better techniques for the implementation of challenging concepts. The Town must make concerted efforts to prepare its students for the ever changing requirements that already have appeared on news media.

Very extensive dialogues with informed people have disclosed an abundant source of information on educational innovations in a) curriculum, b) technology, and organization. However, there was a scarcity of quantifiable information on the effects of these educational innovations. This was a most time consuming and at times very discouraging aspect when contradictory data could be found subject to the likes and dislikes of individuals. Hopefully there emerged the following guidelines for this committee:

- 1) Differentiated staff and team teaching-individualization of teachers and students.

- 2) Utilization of counselors, aides, and para professions—to help assure that teachers are getting help from both directions.
- 3) Independent study, free time for study, vision and consultations so that students can be released for extended periods of time for more involvement and feel for industry's and society's problems.
- 4) Slower learner programs—to enhance the concept that no child need ever fail.
- 5) Daily demand schedules—more scheduling of 20-30 minute modules. Classes of 25-30 for 60 minutes duration are on their way out.
- 6) Computer aided instruction, teaching machines, and information retrieval systems—computers are here to stay and students must learn to work with them.

The above listed guidelines have been translated into the following facility requirements. The trend is away from the traditional "egg-crate" arrangement of classrooms. More and more requirements call for large space interactive environment and small space consultative, counselling areas. Computer aided instruction, team teaching, and nongraded classrooms are the innovations calling for these new space requirements.

Generally speaking, the work of this Committee was resolved into the following:

- 1) Survey of existing facilities for purposes of renovations, enlargement, and/or creation of small group centers.
- 2) Creation of new space where needed.
- 3) Type of construction best suited for new buildings.
- 4) Innovative trends to minimize ever increasing space requirements.

Population

The Town of Walpole school enrollment for the next decade is expected to stabilize at about 5200 for the kindergarten through twelfth grade including special students. In arriving at this total, the following factors were considered:

- 1) Town population trends
- 2) Births to residents
- 3) School enrollment trends
- 4) Grade to grade survival rates

One of the surprises of this study was the excellent correlation of past studies with actual figures and the agreement amongst several independent estimates. Estimates analyzed were:

- 1) Engelhardt and Engelhardt and Leggett, Inc.
- 2) Allen Benjamin—Master Planner
- 3) Walpole School Department
- 4) Educational Service Associates
- 5) School Building Assistance Bureau
- 6) J. Marshall—Educational Consultant

The population growth and totals for the past two decades and projections for the next two are listed below in Table I.

Table I — Population Data

Decade	Total	No. of Households	School Enrollment
1950-59	13,444	3,644	3,074
1960-69	17,396	4,715	4,642
1970-79	22,000	5,075	5,200
1980-89	28,000	6,000	6,000

Unless drastic changes in the Master Plan are made, these values can be expected to be accurate. Expected changes are increase in multi-unit dwellings (i.e. low cost housing) which could be offset by reduction in residential areas rezoned to industrial.

Births to Walpole residents peaked in 1961 at 390. In all subsequent years, fewer children were born. In 1968 the total had declined to 264. The implications

of population explosion and birth control information could have contributed to this decline. It was noted also that first grade enrollments have exceeded the births by an average of 60 per year reflecting the number of new families moving into town making a total kindergarten enrollment of 324. The grade to grade survival rates average out at just below 100%. This implies that the number of school age children moving in nearly equalled those moving out. Significantly Walpole has experienced an increase in non-public school enrollment, including kindergartens from 312 in 1966 to 510 in 1969. Another interesting statistic was the value of roughly one student per household projection.

These statistics were used to arrive at the estimate of 5200 student enrollment for the coming decade into the 1980's. One can summarize these numbers into average per grade enrollment of 400. Thus, with the projected birth rate plus new household total of 324 there appears to be a sufficient growth capacity at the elementary school levels (including kindergarten) if the proposed recommendations are adopted.

The existing junior high schools have a design capacity of 1600 students, which at 80% utilization provides for a capacity of 1280 which is satisfactory.

The peak elementary school population has not yet arrived at the High School and although with a design capacity of 1200, with 80% utilization, the 960 capacity is considered inadequate for the coming mid '70 projections. Immediate steps to provide for 300 more students will be necessary for the accommodation of high school student enrollments.

The Committee also concluded the future population growth will occur in the West Walpole area. This factor coupled with the phasing out of the older elementary schools suggests a new elementary school in this area.

Trends Influencing Facilities

Closely related to the future concern in the Town of Walpole is the interaction of its educational system with Town growth. Believing that systems-integrated Town Planning can result in the orderly growth desired, several discussions have been held with the Walpole Planning Board to coordinate this study with current master planning activity. This committee recommends very highly that continued follow-up discussions be maintained with the master planning activity. Zoning and ultimate industrial structure of the Town will determine to a large extent whether or not Walpole's educational programs are adequately implemented.

Other influencing trends in education will be discussed in the following sections and are identified as:

- 1) Multi-Media Utilization
- 2) Instruction Concepts (Team Teaching and Electronic Data Processing)
- 3) Health Education
- 4) Continuing Community Education

It would be most desirable, while the facilities are being designed, to consider the new, the demanding, and the complex problems facing the students and parents. These include the a) easing of social and economic tensions, b) increased participation in the new areas of technological growth of electronic automation, c) clean environment, d) low cost housing and transportation, and e) more awareness and participation of teen-agers and older citizens in political activities.

Multi-Media Utilization

The principle advantage of multi-media utilization is the vast improvement of communication between students and the subject matter being studied. The team teacher is no longer just the storehouse of knowledge, but can concentrate on helping to overcome individual student approach problems. Its implementation requires a) very large space auditoriums, b) modest sized rooms for

specialized groups, and c) the individual carrel study areas for learning languages, business machine operations, and packaged programs.

For the very large space media, more effective utilization of existing auditoriums can be made by introduction of electronic and audio visual aids. With these aids more interesting and exciting lectures and instructions can be carried out by experts, specialists, and community leaders. These should be structured with the regular programs for courses in all disciplines. Following these presentations, other existing large space areas such as cafeterias and auditoriums could be used for smaller group discussions for more complete dissemination of data. The tables and chairs are all that are required for these purposes.

For all schools, a separate multi-media center is recommended that can implement the following types of activities:

- 1) Television instruction—Educational TV and Closed Circuit.
- 2) Programmed Computer Instruction—multiple, random access terminals and displays.
- 3) Teaching machines—languages and other skills.
- 4) Telephone Amplification Stations—Instant access to sources of information.
- 5) Electronic Data Processing Center—Class scheduling, of 20-30 minute modules, reporting, attendance, accounting, etc.

Electronic devices by themselves are by no means a cure-all and are to be closely linked with Team Teaching.

Instruction Concepts

The other requirements for large space are the concepts of Team Teaching coupled with non-graded, unstructured courses. This study concludes that team teaching can be readily implemented in the spaces made available by basically removing non bearing walls and elimination of minimum traffic hallways. These concepts a) permit more extensive use of better teachers, b) allow pursuit of courses without regard to grades or sequencing, and c) easily accommodate aides and para professionals for better evaluation of student progress.

Other concepts mentioned not only focus on classrooms, but can add significantly to increased interest and motivation levels. These are:

- 1) Inter-visits among schools—incidentally maximizes utilization of school buses.
- 2) Cultural enrichment projects—expose students to other elements of society outside the schools such as museums, lectures, and concerts.
- 3) Extended honors programs—*optional* attendance, and more closely relate classroom instruction to real interest requirements with industrial and professional organizations.
- 4) Creation of science courts in patios and unused enclosures.
- 5) Creation of small spaces for computer input-output terminals and displays which can be located most anywhere in very small cubicles.

Student Health Education

Amongst the older elementary schools and high school, the lack of adequate gymnasium facilities is very evident. The ever increasing national emphasis on health and human well being places an ever increasing responsibility on the school system. In order to cope with the high cost of conventional integral gymnasiums and the cold weather problem, the following concepts are suggested for new gymnasiums where required:

- 1) Separate self contained units featuring a circular floor plan with a domed roof enclosure.
- 2) Ground floor slab construction with multi purpose flooring for versatility and ease of maintenance.
- 3) Electrically heated floor slab.

- 4) Lockers and offices located on the periphery.
- 5) Modest seating capacity to encourage intramural and interscholastic participation.
- 6) Inclusion of facilities to encourage evening school, community, physical education facilities.

While facility requirements comprise a major requirement, it is recommended that other non facility requiring activities be introduced such as, a) calisthenics, b) isometrics, c) modern dancing, d) jogging, and e) cross country running.

Physical education should be more closely patterned to the needs of more "carryover activities" rather than forced group participation in "available" facilities. Credit should be given for after school athletic participation thus releasing critical gymnasium space during the normal school hours.

Continuing Community Education

Your committee desires to endorse plans and projects aimed at more and better utilization of school facilities serving the needs of the community beyond the high school level. It concludes that a well balanced program could readily accommodate the students as well as adults. Here again, as in physical education, these activities should be accredited so that the student can obtain "free time" during the day and releasing much needed space. Of even more value and significance is the real life interactions possible between all segments of society.

Recommendations of Future School Needs Committee

- RECOMMENDATION 1—The construction of sufficient kindergartens to house approximately 400 children. Only Fisher and Old Post Road Schools have adequate facilities at present.
- RECOMMENDATION 2—Alterations and additions necessary to accommodate the new educational trends and anticipated increase of 300 high school students in the mid 70's.
- RECOMMENDATION 3—Construction of field houses, where necessary, and multi-media centers at all schools.
- RECOMMENDATION 4—Improved lunch service handling and administrative/teacher support spaces.
- RECOMMENDATION 5—Phase out of Old Stone, Plimpton and Old Fisher Elementary Schools and conversion of those into other School Department facilities. Construct new elementary school.

One of the urgent needs, but not within the scope of this committee, is the immediate repair and renovation of substandard conditions existing in the plumbing, electrical, and painting installations as revealed in the surveys. This reflects the unfortunate situation which now exists between the Maintenance Department and the School Department and which must be corrected.

In arriving at these above listed school building needs, many alternatives were studied in the process. These were:

- 1) Extension of school day by one to two hours.
- 2) All year operation of schools.
- 3) Four year high school coupled to a four year middle school concept.
- 4) Effect of parochial and private school plans.
- 5) Impact of junior college and community colleges.

The first two alternatives were most attractive and would have alleviated the space problem. However, it was soon determined that even more important than space is the proper implementation of space reflecting the new trends in education. Furthermore even if the short term requirements could have been met,

they would only have deferred the improvements which are required now. If at the end of this decade, unforeseen circumstances result in an overcrowding situation, these first two alternatives can be implemented at that time.

The last two alternatives were very difficult to analyze. Thus, lacking data and definite changes in Walpole trends, no drastic changes would develop from them.

The four year middle school concept was analyzed by cost comparisons of various combinations with existing requirements in the elementary schools and a three year high and junior high school system.

Reasons for the Committee recommendations were based in most part by the following:

- 1) By improving and expansion of existing facilities, the Town will make best use of its planned investment in school buildings by avoiding needless duplication.
- 2) Thus, cost savings consideration will still result while providing improved educational facilities at all levels for well into the next decade.
- 3) Significant renovations or replacements will be required in the present high school regardless of alternate usage.
- 4) Present high school site utilization can be maximized.
- 5) New construction costs for high school will be much more expensive than for elementary schools.

Details

The recommendations detailed below are to serve as firm guidelines for the building committee/architect-engineer team designated to carry out the items of this report by preparing plans and specifications. The design and detailed cost estimates required for the next phase are beyond the scope of this committee.

The itemized future school building needs are listed in Table II.

Table II

A. <i>Rehabilitation of Existing Facilities</i>	
1. Renovation and conversion of existing High School	\$1,270,000
2. Rehabilitation of Bird School	\$200,000
B. <i>Expansion of High School and New Kindergarten Construction</i>	
1. Expansion of High School to 1300 capacity	\$1,920,000
2. Modern Kindergartens for Bird, Boyden and Stone Schools	\$600,000
C. <i>Field Houses, Multi-Media Centers and Other</i>	
1. Bird School—Field House, Multi-Media, Other	\$400,000
2. Boyden School—Field House, Multi-Media, Other	\$300,000
3. Old Post School—Multi-Media	\$160,000
4. Stone School—Field House, Multi-Media, Other	\$370,000
D. <i>Administrative, Teacher Support, and Phase Out of Certain Elementary Schools</i>	
1. Expansion of East Junior High to include multi-media, support space, cafeteria	\$400,000
support space	\$300,000
2. Expansion of West Junior High to include multi-media,	
3. New 300 pupil West Elementary School	\$1,440,000*
4. Administrative Offices	\$360,000

Total Cost Is Estimated at:

A. Rehabilitation of Existing Facilities	\$1,470,000
B. Expansion of High School and Kindergarten Additions	\$2,520,000
C. Field Houses, Multi-Media and Other	\$1,260,000
D. Administrative, Teacher Support and Phase Out of Certain Elementary Schools, Construct New Elementary School	\$2,500,000*

Total

\$7,750,000

* Cost of site acquisition not included

Conclusion

In implementing the recommendations as defined as soon as possible, in a total package, the Town of Walpole can contribute to the continued and improved educational programs for its students for the coming decades. The versatility of the modular concept for the center and their layouts ensures adaptability to changing patterns in school enrollment and programs.

Appreciation to past members Miss Patricia Ellis and Messrs. Arthur Fleming, Garrett Dalton, David Perkins and Roy Fisher and our ex-officio member Robert Bassett.

Signed:
MICHAEL DeROSA, JR., *Chairman*
SHIGEO OKUBO
NORMAN STILWELL
KARL WEST

(*Editor's Note:* Other members of the committee were Henry Hobaica and James Totten.)
